

The Wright Stuff

A Word from Bob Wright

As most of our loyal readers already know, this first part of the newsletter each month is sort of a chronicle of my experiences and my life, salted with descriptions of new discoveries and bathed with the evidence of what really works and what doesn't for cancer and all chronic illness.

I realize that it is often very simplistic (on purpose) and many look forward to the adventures and misadventures of "Bob" as I try to portray the tenants of health and healing through my own life and the lives of those who did the right things and got the right results – versus those who did what was convenient and, sadly, supported by dogma, got the short end of the stick.

Also in this issue:

[Testimonials: AACI Counseling, Kangen Water](#)

[Travel Discounts for You Benefit the AACI!](#)

We have heard literally thousands of stories and testimonials of healing and the myriad of reasons that people believe are responsible for their return to wellness. Please keep in mind, as you utilize the protocol that we forward, or one of your own, that the human immune system is the only thing that heals cancer or anything else. Of course, we support that system through supplements, therapies, treatments, protocols, exercise, and detoxification which, in turn, work diligently to restore the epigenetic systems of the body (physiology) and, ultimately, the immune system. It works. And it works virtually every time if you know how to do it.

I returned from my annual October trip into the wilderness a week and a half ago with a fresh outlook on life and the important work we are all doing at the American Anti-Cancer Institute and International Wellness & Research Center. At 69+ years old, and leaving behind a year and a half in which I struggled briefly with my own health issues (yes, it was a big surprise), I took my new, upgraded self into the heart of the woods with great expectations of drawing nearer to God and becoming a better me – physically, mentally, and spiritually. I wanted to deal with what I term a “righteous anger” that I seem to have more often these days and I see the unfortunate direction our healthcare system is leading us. There seem to be more and more people and organizations becoming upset with the unmitigated gall we must have to promote the natural things that God gave us to stay healthy and heal when we are not. Some are saying we are making medical claims – if not literally, at least implied. Nothing could be further from the truth. Those reading this know by now that we tout the immune system and its ability to heal given the right ingredients. I am deeply saddened that even those in our industry are now shying away from us. Enough of that.

Back to the woods. For six or seven days I was up at about 3:15 a.m., drove 16 miles to where the forest service roads are gated and allow no vehicular traffic, got on my mountain bike with a 25 pound pack and a 10-pound rifle over my back in subfreezing weather, and biked in the dark for three miles. Ditching my bike, I prepared to hike up and down at 4,000 feet for 4-5 hours before returning to the bike and beginning the mostly uphill trip back to the gate. I traveled about 9-10 miles each day and, as always, had the time of my life. I would wish this on everyone. And, yes, I was hoping to encounter a grizzly bear or black bear, cougar, wolf, coyote, deer, moose, etc. And I have seen many of these.

My feeling has always been that man is generally more dangerous in this environment than these animals.

My point here is not to boast about any abilities God has given me but, rather, to show that it is indeed possible to “get your motor running and head out on the highway” (thanks Steppenwolf) even when you think that you “are too old to do that stuff anymore.” I won’t try to fool you by saying that age is only a state of mind. Most of us know that it goes further than that. But for those who are interested in having the highest possible quality of life for as long as possible – we understand that it is possible to enjoy athletic and recreational activities well into your seventies and eighties – if (BIG IF) we will invest ourselves in the right protocol that, once again, keeps us well and heals us when we are not. You see, it goes both ways. What heals – prevents, and what prevents – heals. That is the way it has always worked – in most people and in most circumstances.

I don’t know how long God will leave me on this earth. But I hope to keep doing this as long as possible. We shall see. I adjure those of you who do not have this “happy place” to go to will discover one. Stress is a major cause of so many chronic illnesses today, especially cancer. Find a way to de-stress no matter what it takes (legal, moral and ethical). Get yourself out there, whether it is the beach, mountains, desert, or any other place that gives you comfort and peace of mind. Think about taking your shoes off and do a little “earthing” – sucking up that negative charge that our planet holds and conveys to you – and is so healing.

E-mail me at info@americanaci.org and tell me what you are doing and we will share it with others so that they might know that you and I are not alone in our quest to rest, relax, and recharge our batteries.

Here’s to YOUR health and healing. Start your journey today.

Blessings, Bob

Where in the World is Bob?

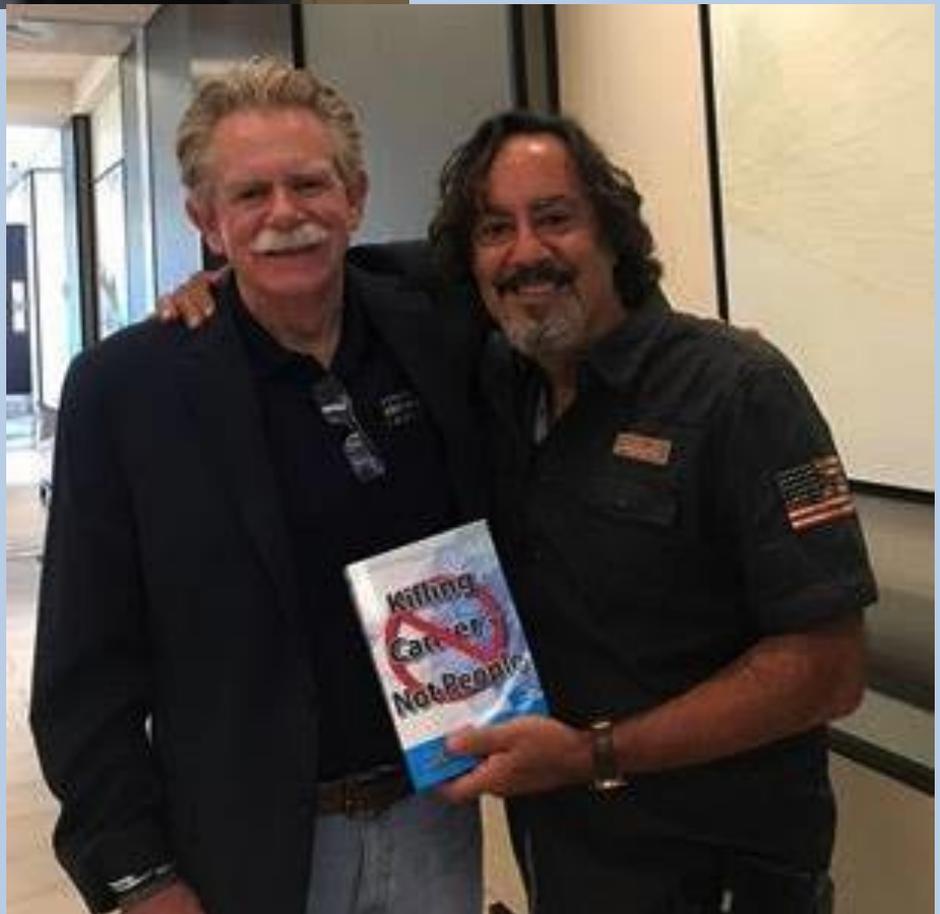

*On his recent trip to **Australia**, here is Bob with children of AACI Head Australian Ambassador Nanette Belista - Paul, 17 years old and Paulette Belista, 8 years old.*

Like & Follow our Facebook page at www.facebook.com/killcancerpeople for the latest updates of AACI!

*Bob with Jana Pitlova Woodruff at the **Cancer Control Society Convention** in September.*

*Bob speaking during the recent event in "the Barn" at **Holly Farms**. Thanks to Steve Beaumont, Anne Meinke, Dan Edland, Elizabeth Christian, Jennifer Lefaive, and Chris Boland for making this event the great success it was. It did get a little cold in that historic barn later in the evening - but the preceding team did a superb job and thousands of dollars were raised for the AACI/IWARC. Thanks, everyone!*

Ward Off Pediatric Cancer By Serving Up Healthy Food To Weaning Tots

Written by: Karol Greening

Photo Credit: Stacy Hazelwood, Peas

Over a 40-year period, there has been a [50% rise in pediatric cancer](#) diagnoses, according to a report from the National Cancer Institute. Children's diets have played a key role in this increase, due to today's youngsters consuming more salt, sugar, and processed foods than ever before. As such, it's crucial that, as a parent, you introduce healthy, homemade food

that's [free from artificial ingredients](#) to your infant to reduce their likelihood of them developing cancer.

Avoiding skin cancer

Skin cancer accounts for 5% of all cancer cases in America's children and adolescents. The Centers for Disease Control and Prevention (CDC) advise that allowing your child to get sunburnt just a couple of times increases a [child's chances of developing skin cancer](#) as an older child or adult. Thankfully, feeding your child wholesome foods can [enhance the condition of their skin](#) and fight off cancer. Strawberries, spinach, avocado, and green tea are all powerful skin-boosting ingredients that can protect the skin from the sun. Strawberries contain a phytonutrient that acts as a natural sunblock, whereas the antioxidants in green tea create an ultraviolet barrier. So, it's worth whipping up a smoothie using these food items for your tot to enjoy.

Healthier alternatives

An analysis of National Health and Nutrition Examination Surveys (NHANES) found that from 9 months of age the diet of the nation's children goes downhill.

For example, 40% of infants fill up on sugary snacks such as brownies and cookies. Rather than relying on these processed, sugar-laden snacks for your child, consider making healthier versions from wholesome ingredients. Fruits, such as bananas, are naturally sweet and can be used to make sugar-free cookies and muffins. What's more, antioxidants, vitamins, and minerals in fruit can ward off cancer as research shows that bananas [reduce cancer growth rate by 40%](#) and strawberries by 50%.

Ramp up the veggies

The NHANES analysis also found that just 30% of [1-year-old babies consume vegetables](#) and, in most cases, this consisted mostly of potatoes. By making homemade baby food for your tot that's packed full of colorful vegetables, you'll give your child the best chance of avoiding multiple types of cancers. Non-Hodgkin lymphoma is the 4th most common type of pediatric cancer but children can avoid it by eating vegetables containing carotenoids, including carrots, sweet potatoes, spinach, and kale blends. Scientists have also found that a Mediterranean diet, including traditional Mediterranean vegetables, such as bell peppers, zucchinis, and eggplants, can lower the risk of leukemia developing, which is the most common cancer seen among youngsters. Pediatric cancer can occur at any time, although it's typically diagnosed once a child starts school. You, therefore, have ample opportunity to give your child the best chance to avoid cancer altogether by feeding him or her wholesome, nutritious food from the moment they start weaning.

NOTE FROM BOB:

The AACI/IWARC does not give a lot of credibility to the National Cancer Institute nor the Centers for Disease Control and Prevention – but the statistics mentioned are noteworthy. In addition, it has never been proven that the sun causes skin cancer – but it is definitely not a good thing to let your children (or yourself) get burned over and over again. We do need the UVB rays from the sun to combine with the cholesterol in our skin to produce something that really does prevent cancer – vitamin D3.

STEM CELLS – Now for Everyone

By now, most people know at least something about stem cells. They are all the rage for health and healing. Sounds great, doesn't it? The problem is that most simply cannot afford the "transplants" of cord or embryonic cells or the collection of one's own autologous stem cells, refinement, and re-insertion into the body. Of course, there is also controversy (as there should be) about collecting fetal cells.

In a nutshell, very few can participate – and the above treatments are not always successful – never mind the cost.

Facts are not elusive when it comes to stem cells, but not many know or understand them. For example, the less stem cell activity in our bodies, the faster we age and the slower we heal. By the time we reach the still young age of 35, we have lost about 50% of our stem cell activity. By 60-65 – 90% has disappeared! With this in mind, it makes total sense that if we could do something to enhance or increase our own stem cell activity it would help us **age slower** and **heal faster!**

Thanks to a recent major scientific breakthrough in Stem Cell Technology, we can now **activate our own stem cells**- even adding more stem cells without painful and expensive injections. This new and advanced technology, with

hundreds of global patents, is scientifically proven to help us look, feel, and perform like we were years younger – sometimes, even decades younger. And one of the best parts is that it is entirely safe and affordable.

Yes, I know this is starting to sound like one of those ads in the tabloids or health advertising newspapers and magazines. Sorry about that. I don't like most of those either. But, you know at the AACI/IWARC we only deal in science, research and proven methods of prevention, health, and healing. There is no hype here.

We believe that this may well be one of the “finds” of this century. While we can't call it the fountain of youth or say that this technology will heal anything, there are those who have been utilizing this unique and patented method for some time now who may well disagree!

Friends, I think that for once I can truly say that this is for everyone. Whether you are struggling with chronic illness (including cancer), battling auto-immune

disease, suffering yourself or a loved one with neuro-degenerative disease, diabetes, arthritis, chronic pain – or, basically anything else, I believe that all can benefit from this new “patch” technology of activating, upgrading, and migrating our own stem cells. It works. And all you do is put on a small patch every day, where it for 12 hours, take it off, throw it away, and put on another one the next day. Now does that sound better than injecting your body with foreign stem cells at \$10-\$20K per whack – with, possibly, questionable results. I think so.

The testimonials are coming in fast – and they are great, and some would say, unbelievable. But I believe them because I know the science behind this.

To take a look at this new stem cell technology, go to the website www.LiveYoungerLonger.org. There are a few short videos there that you can watch that will bring you up to speed.

To place an order, go to www.LifeWaveX39.com/aaci. I am so confident in the technology that I fully expect that most reading this will do exactly that. The cost is \$149.95 per month or, by paying a small annual fee of just \$25 and setting up to receive these automatically every month, the price goes way down to only \$99.95 per month. Now, I understand that for some – that will still be a high price. It is worth it Friends – every cent of it. What is your health worth to you? And, please hear this: ***This technology may well change the face of health and wellness as we know it in this entire world.*** YES, I did just say that. When you look at the research and how this works, why it does what it does, and the results that are realized – I think you will agree with me.

If you have questions, please email the AACI at info@americanaci.org or Shelly Oslie, who is handling this for us, at shelly@americanaci.org/. Believe me when I say, you won't be sorry. And, don't wait. It is truly the time for this one-of-a-kind product.

Blessings, Bob

Reminder: When enjoying the benefits of these Stem Cell Patches, you are also supporting AACI to further our research in Disease Prevention. We thank you!

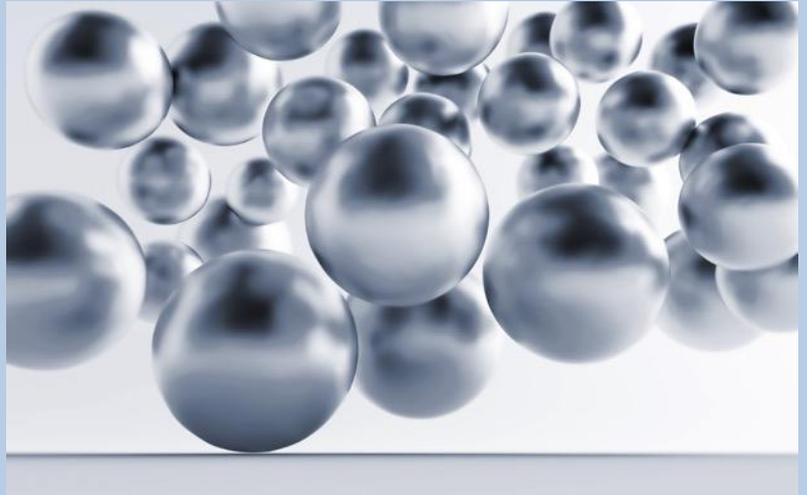

SILVER AND STEM CELLS

You hear us talking about the benefits of silver all the time here at the AACI/IWARC. We know that silver has the highest conductivity of any metal and kills virtually every pathogen known to man – when used correctly in the right medium.

Since you have just read our article regarding the technology on how to reboot, upgrade, and migrate our stem cells for health and healing with the X39 patch

from LifeWave, let's listen to world-renowned Doctor Carolyn Dean – and what she says about silver and stem cells:

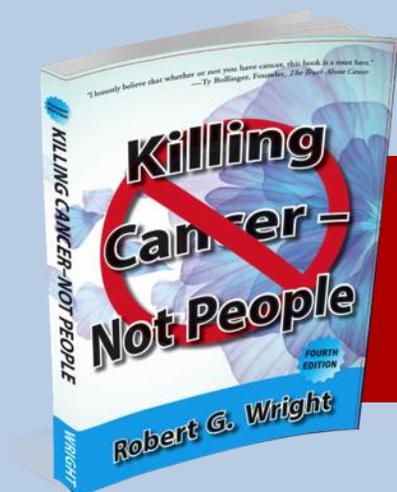

“Upon entering the bloodstream, silver ions circulate through the tissues of the body, as well as the bones which are difficult to treat with antibiotics, where it neutralizes a host of different microorganisms without damaging human cells. Another great aspect of silver is that it acts as a catalyst for the repair of damaged tissues by stimulating the return of stem cells

to their original embryonic state. In scientific studies, tissue growth occurred at a rate that was at least five to six times faster than treatment without silver.”

See the study at <https://wp.me/p4CmMU-NQ>

Now, if you are looking for the best and most absorbable forms of ionic and nano silver – look no further. You can get them through Dr. Carolyn Dean or our good friend, CJ Coston at the Eutropean Health Institute. Dr. Dean's site is at www.rnareset.com. CJ is having her special sale on Silver Angel. Call CJ at 719-243-4944 for this product.

Welcome Our New Ambassador...

Please welcome new SE Asian Ambassador Dr. Ray Dixon who will represent the AACI/IWARC in Thailand. Welcome aboard Dr. Ray!!

I entered college in 1974 and Graduated in 1978 as an Osteopath and Naturopath, Southern School of Natural Therapies Melbourne.

1982 Graduated from RMIT University as a Doctor of Chiropractic.

Practiced in Croydon Melbourne Australia since 1978.

Finished practice only when I left my clinic to come and live in Phuket June 2017

A Bachelor of Arts degree majored in Politics and Philosophy Swinburne University , 1992.

I was on Melbourne Radio 3AK as a Chiropractor Natural Therapy consultant for talk back radio 1995-2000 , weekly one hour show

Won Gold medal for Australia in Japan Karate 1992. 1st Dan Black Belt Commenced lecturing 2001 at Australia College of Natural Medicine and Victoria University , lectured for 16yrs till coming to live in Phuket 2017.

2019 Now live with my wife Chaweewan in Phuket sharing ASEA and Kangen with Thailand & the World.

More info. Contact : Drraydixon@hotmail.com

Testimonials: Thank You Mr. Wright!

Kangen Water™ Testimonial

Prepared by: AACI Ambassador (South East Asia): John Lim

Testified by: Patient Ah On on 26 October 2019

Testimony of severe Psoriasis from China:

My name is Ah On, age 69, from China. I have been suffering from Psoriasis at the age of 32 for more than 30 years. I have consulted many western skin specialists and treated with many types medicine but to no avail. I was so desperate to find healing and have tried many Chinese traditional. I also deployed supernatural methods by drinking even child urine and pregnant women urine. It was claimed that it can stimulate my enzymes to function but also to no avail. My skin condition was so severe that when the light was switch off and you can see clearly white patches on my back in the dark.

In mid of 2015, I installed a kangen water Ionizer. However after I drank for one month, my skin condition became more severe with inflammation than before. I was advised to continue drinking more pH 9.5 and pH 11.5 (I was told pH 11.5 was not suitable for drinking). Then in the second month onwards, my skin condition began to improve gradually. After a few months my skin improves drastically with smooth complexion without inflammation. Occasionally my skin came out one or two skin inflammation spots but it disappeared after 2-3 days with continuation of drinking kangen water and sprayed with pH 2.5 and pH 11.5 onto inflamed skin. Now in 2019, my Psoriasis is completely healed. Kangen water is really changed my life. People said kangen water is a good medicine but I said kangen water is a miracle natural healing water medicine. I believed kangen water is not heal my skin disease directly but it cleanse me internally by getting rid of my toxic waste that enable natural healing within my body. Now I hope I can follow my successful leader Eric Wong to become 6A3-5 to promote Kangen water ioniser. Hopefully I can help many people by improving my financial well being.

来自中国的严重牛皮癣的证词:

我叫阿安，现年 69 岁，来自中国。我 32 岁时患有牛皮癣已有 30 多年了。我已经咨询了许多西方皮肤专家，并接受了许多类型的药物治疗，但均无济于事。我非常渴望找到治愈方法，

并尝试了许多中国传统疗法。我甚至通过饮用儿童尿液和孕妇尿液也采用了超自然的方法。据称它可以刺激我的酶起作用，但也无济于事。我的皮肤状况如此严重，以至于当灯关闭时，您可以在黑暗中清晰地看到我背上的白色斑块。

在2015年中，我安装了 Kangen 水离子生成器。但是，我喝了一个月后，发炎的皮肤状况比以前更加严重。建议我继续饮用更多的 pH9.5 和 pH11.5 (被告知 pH11.5 不适合饮用)。然后从第二个月开始，我的皮肤状况开始逐渐好转。几个月后，我的皮肤急剧改善，肤色光滑，无发炎。偶尔我的皮肤会出现一两个皮肤发炎点，但在连续喝 kangen 后 2-3 天后消失，并在发炎的皮肤上喷洒了 pH2.5 和 pH11.5。现在到了 2019 年，我的牛皮癣完全治愈了。康恩水真的改变了我的生活。人们说根水是一种很好的药，但我说根水是一种神奇的天然治疗水药。我相信看根水不能直接治愈我的皮肤病，但是它可以去除体内能自然恢复健康的有毒废物，从而在内部为我提供清洁服务。

现在，我希望我能跟随我成功的领导人 Eric Wong 成为 6A3-5，以推广抗根水离子发生器。希望我可以通过改善我的财务状况来帮助许多人。

SPONSOR HIGHLIGHT

A financial service for using life insurance today™

For millions of people who are living with a serious illness such as cancer, heart disease, Alzheimer's or AIDS, the high cost of medical care can quickly deplete essential resources. The same is true for many people over the age of 75 who have complicating health factors. Just putting money aside for basic expenses such as groceries and mortgage payments can be a challenge. LIBI gives people a place to turn for additional resources. Through a financial service called a viatical settlement, we enable people to sell their current life insurance policies for a percentage of the total face value. The money people receive may be used for any purpose and, in most cases, is free of federal income tax obligations.

LIBI can help open the door to new possibilities—such as fewer financial worries, new options for medical care and additional resources to share with family and friends.

All of us have our own sense of what's important, whether it's reaching a long-held goal, spending time with family and friends or enjoying the simple pleasures of each day.

What sets Life Insurance Buyers, Inc. apart

People place their trust and confidence in LIBI for many reasons—the financial strength and stability of our company, the experience and commitment of our people, the range and quality of our services, and the leadership and integrity of our organization. These are the qualities that set LIBI apart as the industry's top broker. LIBI has helped convert millions in policies into accessible funds for hundreds of individuals in need. In every relationship, we take the time to learn what's most important to our clients and to provide them with the resources they need, in a timely and confidential manner.

LIBI
LIFE INSURANCE BUYERS, INC.

Since 1995

*Working with
cancer patients and
their families for
over 15 years.*

People who put clients' needs first

We truly understand that people place their trust in us every day—to treat them fairly, to deliver what we promise and to be there when they need us. Our mission is to live up to those expectations every time, without exception. That commitment is demonstrated through the professionalism and compassion of our owners. For individuals who are considering a viatical settlement, their personal representative provides a voice of understanding and serves as a trusted resource for help and information.

Leadership that makes a difference

At LIBI, we operate with the highest ethical standards, carefully protecting the interests of our clients. To us, that means maintaining strict client confidentiality, offering fair payment for policies and encouraging

From the first call to LIBI, each client works with a single client service representative, who is there to help every step of the way.

effective regulation of our industry. We work closely with the National Association of Insurance Commissioners as well as federal and state governments to promote meaningful regulation of viatical settlements. LIBI works with numerous not-for-profit organizations across the country to help educate and inform the community about this important financial resource.

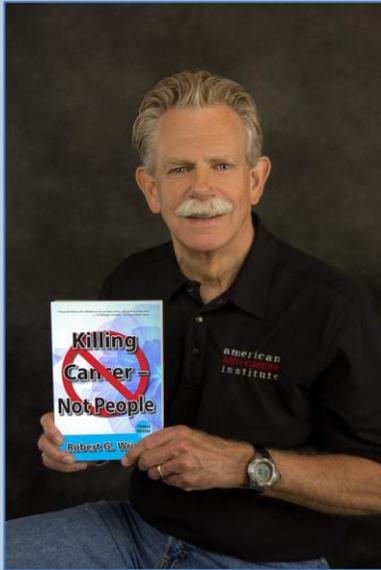

What's important?

Choosing a company you trust. At LIBI, our strength, people, service and leadership make a difference to our clients and set us apart as the nation's leading broker of viatical settlements. We encourage you to find out more about how we can help you to someone you know.

WHAT WOULD THE AUTHOR, BOB WRIGHT, DO IF *HE* HAD CANCER?

The "Wright Stuff", of course!

IN THIS BOOK:

- Read meticulously documented **Truth** about the **AACI Cancer Paradigm** and what it means for you and your family.
- **Be amazed** by doctors and medical professionals who know this Truth – some want you to know it, and some don't. Learn why.
- Learn what you absolutely ***must do and stop doing*** if you have cancer right now, and what you ***must do*** for cancer prevention.
- Understand detoxification and the cancer diet in plain English.
- Read **dozens of testimonials** from those who have suffered with many types of cancer and have struggled with conventional medicine. Discover what they did that put their disease into remission.
- **Learn the five-step protocol that is essentially all that cancer patients really need.**
