

The Wright Stuff

A Word from Bob Wright

Gee, it's April already. Wasn't it just Christmas a few weeks ago? The days and years seem to be whizzing by. Of course – for us older folks – we never thought we would get this old – not like our Moms and Dads.

AACI Sponsor Highlight: Life Insurance Buyers, Inc.

Yet, here we are. And, we are trying to stay alive and have a good quality of life in the process. But – just how does one do that? How do some manage to live into their late 80's or 90's and stay active and out of the doctor's office and hospital? You would think it is a secret – but really it's not.

Sadly, most people I know that are my age are inactive, overweight or obese, struggling with chronic illness or disease and, it seems, waiting to die. What has become of us? Tell me, when did we change from a hard-working, active, eat good wholesome food country to one that is lazy (not everyone), inactive, junk eating and largely lethargic and indifferent? Just when did that occur? The answer is – in the larger scheme of things – not that long ago.

I know, you are now wondering where I am going with this and what it has to do with cancer. Well, the latter is self-evident. Cancer is a serious internal event where the human body is actually trying to save itself. It is a warning, a wakeup call to get your house in order – ASAP. It is largely caused by what I just mentioned above; i.e., the wrong food, the wrong liquids, no exercise, no lymph movement – and the general flooding of our organs and tissues with different forms of chemicals and radiation. Of this there can be no denying.

So, while this relates to cancer – it also is both the causative and curative formula for every other sickness and disease. Yes, I said curative – for what heals prevents, and what prevents also heals. What causes disease, when reversed, also helps in the process of bringing the body back to homeostasis and the resurrection of its epigenetic pathways.

Having said this, we need to fully understand the basics of how this works. Now, I am going to go deep into the knowledge and understanding of health and healing so that everyone can understand. Here it is. Stop

eating crap and putting chemicals on and into your body. Insulate yourself from all forms of radiation. Drink the right fluids (water). Take the right supplements. Detox your body on a regular basis. Exercise. There it is – the wisdom of the ancients. For the most part, it really is that simple. Our country spends hundreds of billions to trillions each year on health care (it's really sick care), drugs, unneeded surgeries, etc., and almost nothing on prevention. After all, there is no money to be extracted from a very healthy society. Where's the fun in that? And the battle for our children is fully engaged. You don't own them – the state does until they are 18. So, no, you can't treat them with the natural ingredients that have helped so many for millennia – if they are very sick. They must go to the hospital and be plied with the allopathic poisons – and you have virtually no say in it. Try and object – see where it gets you.

The real money now for the drug companies is in vaccinations. They have seized upon this opportunity and are working toward making them mandatory – not only for our children – but for everyone. There is now more money in vaccines than regular drug treatments. Why wouldn't they go after this? Well, they would – and, they are.

This brings me to the main point of this article. You must realize by now that we need to protect our health – whatever it takes. To that end, we have always recommended good, organic food and alkaline water. It just makes sense. We continue to be on the leading edge of supplementation – for most of us need added or extra nutrition often, or always, in our lives. We have discovered a way to ameliorate radiation from Wi-Fi, cell phones, computers, power lines, smart meters, etc. We are very carefully examining the Ketogenic Diet and are very pleased and excited about what we have seen so far. We have been studying GcMAF – a very controversial substance (but only by the medical cartel) that appears to have worked miracles for cancer patients and children with autism. Many doctors are no longer with us because they were forwarding this

supplement. You can do the math on that one. We are investing our efforts in other plant extracts and products derived from these to see if they meet our expectations and qualifications; that being that they work and are good for most everybody.

We have recently discovered a sanitary napkin pad for women that appears to be so extraordinarily good that ladies from all over this country are literally flocking to get them – by the tens of thousands (see this info later in the newsletter). We are working with a stem cell company and are very excited with the results they are seeing. We have (right now) the best protocols and supplementation for those with heart issues, diabetes, auto-immune diseases, and neuro-degenerative diseases (Alzheimer's, Parkinson's, ALS, MS, etc.). We have discovered and have been using what we believe to be the best form of ionic silver – known to kill (through suffocation) almost every pathogen known to man. We are working with a company (utilizing its products solely) that has discovered true “epigenetic” proteins (peptides) – and can be advertised as such.

We are fully engaged with companies that have done and accumulated years and years of hemp and cannabis studies to prove the efficacy of these products. Yes, they work. We have discovered the best cod liver oil in the world – the true source of vitamin D3 and vitamin A – plus about a thousand other nutrients. We now have a product that is L-Arginine based – making it probably the best precursor for HgH (Human Growth Hormone) that helps to restore the human immune system.

Folks, the list goes on. So, no, we haven't “just” been sitting around helping cancer patients every day (what a great thing to be doing, though), we have been hard after the work and research that it takes to bring the right foods and supplements to the marketplace and to those who need them so desperately.

To that end, for full disclosure, we have become distributors (only in the right situations), affiliates, or wholesale/retail marketers for the products that we truly believe in and are beyond exceptional. Keep in mind, there are not hundreds or thousands at this point. But there are some. You can go to our growing on-line store (www.americanaci.org) and find these. This list will continue to grow as we move forward. The idea behind this grew out of the need for our customers and the need to stay in business. Non-Profits are always trying to find funding to stay alive and grow their organizations. And, the patients we deal with are always looking for just the right foods, water, detox methods, supplementation, and exercise equipment. There is a lot of “stuff” for sale out there today. Sadly, much of it is not too good. We aim to change that.

So, you won't see us forwarding fractionated, synthetic vitamins, probiotics that won't survive the stomach, unproven formulations – anything like that. No, we are looking for the best – because we know, beyond a doubt, that lives depend upon the right solutions, therapies, treatments, protocols, and supplements. We won't settle for less – and neither should you. At times, these things will cost more, we understand that – we just have to find a way to deal with it.

If it is my life on the line, I want what my body wants – not some synthetic drug or supplement that it can't deal with – and those nasty “side” effects to boot.

In life, sometimes we can settle for less than the best if it is not a critical situation. With our lives, however, we really can't do that – and, why would we?

I will be in Mt. Vernon, Washington for an event on Saturday, April 8th. Next will be Atlanta, Georgia for a three-day event, April 21st, 22nd, and 23rd. Following that, it is off to Toronto, Ontario, Canada, on May 27th

and 28th. Check out the flyers next in this newsletter for exact times and venues. See you there!

Budwig Tips: Should you Soak Seeds and Nuts Before Consuming Them?

by Kathy Jenkins

AACI/IWARC note: From our friends at the [Budwig Center](#) in Malaga, Spain, regarding the tremendous value of soaking seeds and nuts before consuming.

Why did our ancestors soak seeds and nuts before consuming them?

Before the age of refrigeration, people seemed to know the importance of soaking and fermenting grains, beans, nuts, and seeds. Somehow they identified the link between conservation, better nutrition, and digestion. They understood that these foods have a sort of toxic protective wall built within them to discourage attacks from insects, predators, bacteria, fungi, and viruses. *Read the full article [here](#).*

4 Unusual Sleep Remedies That Work

by [Cherie Calbom, The Juice Lady](#)

AACI/IWARC note: Our Advisory Board Member, Cherie Calbom, the International Juice Lady, shares her remedies for insomnia and stress and adrenal fatigue.

1. **Over-thinking and overheating at night.** If you find that your chattering mind won't turn off at night, 3 g of glycine (a non-essential amino acid) taken at bedtime has been shown in studies to help alleviate this problem. "Glycine undergoes passive diffusion through the blood-brain barrier and acts primarily on N-methyl-D-aspartate receptors (NMDA). Its actions on the NMDA receptor are believed responsible for inhibiting muscle activity during rapid eye movement (REM) sleep, and for lowering core body temperature to facilitate sleep. *Read more [here](#).*

Cherish™ Premium Sanitary Napkins

AACI/IWARC note: Many don't want to talk about it, but every woman needs to know about this. Please see the article below then view the two short videos.

Ladies, this is what you have been waiting for! Finally, a sanitary napkin that provides you with the dryness, comfort and protection that you need and want. Cherish™ Premium Sanitary Napkins include negative ion technology which has been proven to balance PH and hormone levels, helps protect against germs and bacteria, helps to reduce inflammation, fights against vaginal irritations and infections and reduces unwanted odor. You're going to *Love the Way You Feel™*.

8 Layers of Comfort

- The first layer is 100% pure cotton. Most top brands use synthetic petrochemical materials. These petrochemical materials may irritate sensitive skin and cause discomfort. Also, they do not let the skin breathe, which increases the risk of bacteria growth. They are chosen by manufacturers because of their cheaper production costs.

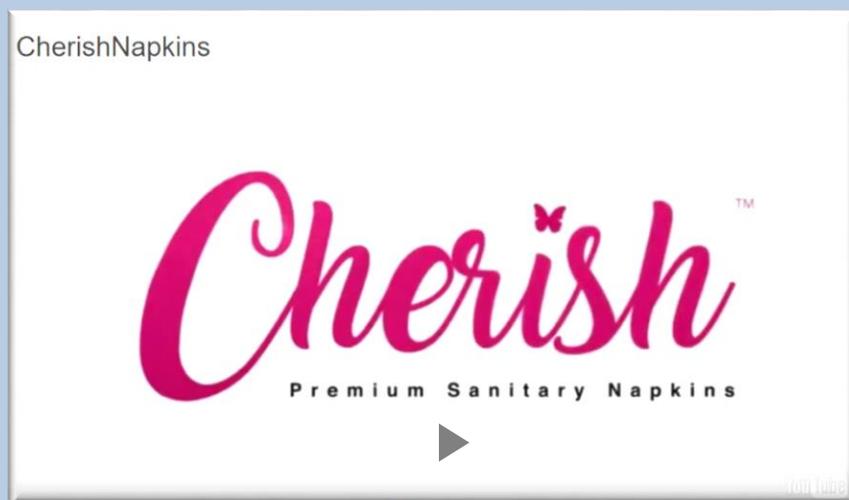

- The 2nd layer is the all-natural negative ion strip. Negative ions are created in nature by the effects of water, air and sunlight. That taste in the air and feeling near a waterfall is your body being saturated in the benefits of negative ions. Sometimes called the “Vitamins of the Air”. Negative ions have been proven to balance PH and hormone levels, helps protect against germs and bacteria, helps to reduce inflammation, fights against vaginal irritations and infections and may reduce unwanted odor. Far Infrared technology have been added to the 2nd layer to help balance pH and boost immune system. Another added bonus is Nano-Silver that helps to eliminate bacteria.
- The 3rd layer is airlaid paper that provides additional protection from unwanted leaks.
- The 4th layer is a super-absorbent and safe polymer that is up to 10 times more absorbent than conventional pads and holds more than 300 times its own weight in liquid!
- The 5th layer is an enhanced flow layer that has been specially designed to prevent reverse percolation. It absorbs and moves dampness away from the body.
- The 6th layer is an additional layer of airlaid paper to reinforce and lock in the dryness women need and desire.
- The 7th layer is a micro-perforated, breathable bottom that promotes the flow of fresh air, limiting and preventing the growth of harmful bacteria.
- The 8th layer is the release paper that contains an agricultural grade adhesive for security. Many manufacturers use construction grade

glue as an adhesive, again, harmful both to our women and the environment.

With Cherish premium pads, you're going to *Love the Way You Feel*[™].

Cherish Daily \$5 for 10, Cherish Overnight \$5 for 8, Cherish Extra \$5 for 8, Panty liner \$5 for 30.

We Are Winning

A message from [Vani Hari, The Food Babe](#)

If you've ever wanted to know what's going on behind closed doors at Monsanto's headquarters, we just got a peek inside! Also, I'm making a VERY EXCITING announcement about a new label that will start popping up on food. Many people have been asking for this... you're gonna love it!

Monsanto was just forced by a California judge to release millions of internal documents and some of them were made public. When I read their emails, my jaw dropped to the floor! These emails show what many of us have suspected for quite some time... Monsanto is manipulating scientific research and has gotten some EPA officials on their side who seem to be helping them cover-up the health dangers and cancer risk of Roundup so they can keep it on the market. It's sickening and this stuff is being sprayed on GMO and conventional food!

[Read the newly released emails in this brand new post.](#)

I have made it my life's mission to raise public awareness about what's really in our food, how it can affect our health, and how a handful of large corporations are poisoning us for profit. These corporations use big bucks and unethical tactics to influence regulators into playing their game to keep Americans in the dark about the dangers of their products. We should be able to trust that the food we buy is safe, but when the people in charge of that are working to keep unsafe chemicals on the market – we've got a HUGE problem.

Please share this information with everyone you know!

Xo,
Vani

New Treatment Weapon

AACI/IWARC Note: Our good friend, Maureen Long, at the [Holy Grail Cancer Care Wellness Center](#) in Cancun, just sent us the following link. You should be very interested.

Holy Grail Cancer Care now offers proprietary cannabis: A Unique Hybrid, Hemp Based Oil.

Holy Grail Oil is a unique blend of the molecular compounds known as cannabinoids that support the immune system, as well as destroy, reverse and kill cancer cells. It is anti-inflammatory, and contains a full range of nutrients. It is organic and pesticide-free. Also, it is cold pressed, thus retaining the healing properties so often destroyed by heat extractions. It is lab-tested, with analysis proof of quality.

To understand this oil and why it is not like most other oils, let's cover a little background on the source—the plant. But please remember, Holy Grail Oil is a unique hybrid blend. Several growers have tried to duplicate it, but have not been able to. The properties of the oil are uniquely a result of the plant species used. Growing conditions are strictly regulated indoors with airlocks and other appropriate measures to prevent cross pollination with less desirable subspecies. The seeds are kept in a climate controlled vault.

Click [here](#) to read more and to see a video from Maureen Long.

Personal Health Testimonial

from Norhayati Binte Musa, AACI/IWARC Consultant

Conditions: Chronic Asthma, Gastritis, High Cholesterol, High Blood Pressure, Edema and Obesity

Patient: Norhayati Binte Musa

Age: 55

Race: Malay

Profession: Enagic Independent Distributor and AACI Consultant

Citizenship: Singaporean

Back in 2008, my dad, a Non-Hodgkin Lymphoma cancer patient, had a recurrence. As a care giver, I felt the pain of his suffering. To deal with the stress, I started over-eating and using food as an escape. When he passed away in 2010, I was at my maximum weight of 120 Kgs. I was admitted to the Singapore General Hospital on the day after my father's burial. The doctors said I had a series of problems, including edema in a swollen leg due to dehydration, high cholesterol, high blood pressure and obesity.

I refused to take any medications because if drugs were unable to help my beloved dad, I didn't believe they would help me. The doctor in charge told me that if I didn't take the prescribed medication, I would have a stroke. Upon hearing that, I felt that I had no other choice but to swallow the pills. The side effects of these drugs caused pain in my knees. I couldn't use the stairs or chase after the bus. Once I would sit on the floor, I would need help to pull up due to the pain and weakness.

The first indication of asthma occurred during travel for an Enagic business trip in 2012. After being exposed during a flight, I suffered

months of nonstop coughing accompanied by chest tightness and breathlessness and was subsequently diagnosed with chronic asthma.

I visited many physicians but saw no real improvement. The most they would do is give me high dose of steroids and nebulizer for a few days until my airways would expand enough so that I could have breathe without coughing and wheezing. The side effects, however, were severe and included trembling fingers. My speech was also affected.

In 2013, after years of suffering, a friend of mine introduced me to Kangen Water. I began drinking 9.5 pH Kangen Water, but the asthma attacks continued. After reading about 11.5 pH Kangen Water in chapter six of "Killing Cancer - Not People", I began to drink 4- 5 liters of 11.5 pH Kangen Water per day.

This helped with the asthma, but I was still susceptible to illness and when exposure to any infection would trigger the asthma attacks again.

Then I began taking UKON Tumeric. I started with 10 capsules per day, taken with my 11.5 pH Kangen Water. I increased my intake until I reached 50 capsules per day. This was like a shield against infection. I felt safe at last! No infection - No Triggers!!

I continue to stick to this practice today. It is MUCH BETTER THAN TAKING DRUGS AND SUFFERING SIDE EFFECTS. UKON TURMERIC is food NOT A DRUG. Kangen water PH 11.5 is the best highest negative ORP that helps repair damaged cells at the DNA cellular levels. I use Enagic SUPER 501 machine for my home domestic usage.

This routine not only helped my asthma but also my gastritis and problems with obesity. I went from 120 Kgs to 87 Kgs after only 5 month of this routine. To my surprise, the other test results also showed significant improvement. I had healthy cholesterol levels and my blood

pressure was normal. I had no more pain in my knees and I feel much lighter!

If this works for me, I believe it will work for others, too.

For more information, please contact me.

truth leadership hope

Breast Cancer and Soy

So many are worried about soy – especially when it comes to breast cancer. I have done the studies and they have revealed that soy is one of the most anti-cancer foods that exists. The problem is that about 95% of the soy grown in our country is genetically modified. Not good for you. Most of the rest is treated with hexane or other chemicals. Not good for you. However, pure soy, monitored from seed to harvest, is very good for you. See the link below and discover the article that our good friend, Dr. Alfredo Galvez, points to regarding soy. Dr. Galvez is the founder of lunasin, a soy peptide that we believe is turning the tide on chronic disease as it helps to restore the epigenetic systems of the body.

[Where do we stand on soy?](#) by *Jacqueline Howard, CNN*

SPONSOR HIGHLIGHT

A financial service for using life insurance today™

For millions of people who are living with a serious illness such as cancer, heart disease, Alzheimer's or AIDS, the high cost of medical care can quickly deplete essential resources. The same is true for many people over the age of 75 who have complicating health factors. Just putting money aside for basic expenses such as groceries and mortgage payments can be a challenge. LIBI gives people a place to turn for additional resources. Through a financial service called a viatical settlement, we enable people to sell their current life insurance policies for a percentage of the total face value. The money people receive may be used for any purpose and, in most cases, is free of federal income tax obligations.

LIBI can help open the door to new possibilities—such as fewer financial worries, new options for medical care and additional resources to share with family and friends.

All of us have our own sense of what's important, whether it's reaching a long-held goal, spending time with family and friends or enjoying the simple pleasures of each day.

What sets Life Insurance Buyers, Inc. apart

People place their trust and confidence in LIBI for many reasons—the financial strength and stability of our company, the experience and commitment of our people, the range and quality of our services, and the leadership and integrity of our organization. These are the qualities that set LIBI apart as the industry's top broker. LIBI has helped convert millions in policies into accessible funds for hundreds of individuals in need. In every relationship, we take the time to learn what's most important to our clients and to provide them with the resources they need, in a timely and confidential manner.

LIBI
LIFE INSURANCE BUYERS, INC.

Since 1995

*Working with
cancer patients and
their families for
over 15 years.*

People who put clients' needs first

We truly understand that people place their trust in us every day—to treat them fairly, to deliver what we promise and to be there when they need us. Our mission is to live up to those expectations every time, without exception. That commitment is demonstrated through the professionalism and compassion of our owners. For individuals who are considering a viatical settlement, their personal representative provides a voice of understanding and serves as a trusted resource for help and information.

Leadership that makes a difference

At LIBI, we operate with the highest ethical standards, carefully protecting the interests of our clients. To us, that means maintaining strict client confidentiality, offering fair payment for policies and encouraging

From the first call to LIBI, each client works with a single client service representative, who is there to help every step of the way.

effective regulation of our industry. We work closely with the National Association of Insurance Commissioners as well as federal and state governments to promote meaningful regulation of viatical settlements. LIBI works with numerous not-for-profit organizations across the country to help educate and inform the community about this important financial resource.

What's important?

Choosing a company you trust. At LIBI, our strength, people, service and leadership make a difference to our clients and set us apart as the nation's leading broker of viatical settlements. We encourage you to find out more about how we can help you to someone you know.

WHAT WOULD THE AUTHOR, BOB WRIGHT, DO IF HE HAD CANCER? The "Wright Stuff," of course!

IN THIS BOOK:

- Read meticulously documented **Truth** about the AACI **Cancer Paradigm** and what it means for you and your family.
- **Be amazed by doctors** and medical professionals who know this Truth – some want you to know it, and some don't... Learn why.
- Learn what you absolutely **must do and stop doing** if you have cancer right now, and what you **must do** for cancer prevention.
- Understand detoxification and the cancer diet in plain English.
- Learn about the **American Anti-Cancer Clinic**: situated within a 100-acre plus cancer-healing complex in the Pacific Northwest, to which cancer victims can come from all over the world where all their needs will be met—medical, educational and nutritional, at less than one tenth the cost of current cancer care today. We believe that **"if we build it, they will come!"**

This Book represents our "bread and butter" fundraiser, so we greatly appreciate your purchase and thank you for supporting the AACI. \$12 of each book is tax deductible as a donation to the AACI under IRS Code 501© (3).
