of you already know most of them. Friends, if you are going to raise money for cancer – of any type – please do your homework and find out who is doing the real work to educate and help cancer patients. Sadly, it is far too easy today to attach our wagon to the big name non-profit that promises the cure and states that we just need some more research dollars. So, many join in. And when you ask where all that money goes, they simply say “cancer research,” and seem to be happy with their answer. Don’t be fooled. Most of those dollars go to the good ‘ol boy network of mainline researchers who do the same thing, year in and year out, looking for drugs that might save one cancer victim before it kills him or her.

I ask you to read the “Introduction” to a new book I have been working on for at least the past four years and is titled, “The Pinkwashing of America, the Politics of Breast Cancer.” It has been a long time coming and has a ways to go before it is complete. I encourage you to give me your thoughts and feedback – good or bad – on this. Thanks for listening – and we sincerely appreciate your continued support.

## **“THE PINKWASHING OF AMERICA”**

### ***INTRODUCTION***

*“The disease is 90% preventable, mostly using completely free therapies. The breast cancer industry does not want women to be made aware of these free therapies because most of the better known non-profits in the area of breast cancer are, themselves, dependent on revenues from the companies that profit from the disease.”*

Mike Adams, The Health Ranger

*They say that truth is stranger than fiction. I believe it. Seriously, I probably could not make this stuff up if I tried. What lies herein is a sad tale. And by tale – I don't mean that this is a work of fiction. To the contrary, this story is an actual account of the history and facts surrounding the rise of breast cancer as a business in this country.*

*It is, in essence, an undertaking illustrating the power and greed of both corporate and non-profit America and the pain, grief, and agony that they have cooperatively produced and heaped on cancer sufferers and their families over the past 40 years.*

*It is a sorry testament to conventional medicine and its quest to maintain the status quo of cancer treatment that this book must be written at all. Surgery, chemotherapy, and radiation therapy remain the mainstay of a broken “sick-care” system that cannot produce a healing rate above three percent and – at the current pace – never will. New drugs are produced, gene and genome research continues, and cancer patients continue to die at a relentless and alarming speed – second only to iatrocide (death by doctor).*

*Many believe the breast cancer industry is a scam pioneered and run by a “herd” of charlatans chasing the proverbial almighty dollar. This greed is accompanied by the quest for power – and power knows no bounds and takes no prisoners.*

*One in eight women today will be diagnosed with breast cancer. That is nearly triple the lifetime risk of the 1940's which was one in twenty-two. The American Cancer Society reported that there were 192,370 new cases of invasive breast cancer in 2009 and 40,170 deaths. I believe their numbers are low. Statistics are juggled easily by those who have a vested interest in keeping the “war on cancer” in high gear. Nevertheless, far too many women are being diagnosed and 90% too many are succumbing to this disease.*

*Profiteering in disease is nothing new. Whole industries are built around chronic illness that should be cured instead of “controlled.” Heart disease, diabetes, arthritis – yes, all of these and more are being manufactured (think the food we eat, water we drink, environmental chemicals, etc.) and then the sickened patients are treated with surgery and drugs until they die. What a magnificent scheme. Make ‘em sick, treat ‘em till all their life energy and money is gone, then let ‘em die.*

*Enter the real hucksters. And these are those who would find a way to surround the situation (cancer), round up a posse of supposed “do-gooders,” lasso a plan that has the appearance of a win-win for all parties involved, then ride off into the sunset with everybody’s money – leaving a trail of dead bodies in their dust. Unfortunately, most of us are oblivious to the reality of this marketing blueprint and its predetermined outcome.*

*Undeniably, those trafficking and merchandising in the very commercial industry known as cancer, are literally making a killing – in more ways than one. More people acquire cancer today than ever before and, despite new drugs, new therapies, and the ever-present promise that the “cure” lies just around the corner, one of somebody’s family dies every minute in this country from this deficiency disease.*

*Make no mistake, cancer is big business. More people actually work in the cancer industry today than people who have cancer. And we know, beyond any doubt, that there is no shortage of cancer patients. In and of itself, breast cancer is a humongous business enterprise that stresses “early detection” by means of periodic (often every year or two) exams called mammograms that, through many studies, have been shown to cause the cancer that they project to prevent. If you don’t know by now, early detection – while always preferential to late*

*detection – is not the answer. Prevention is. Combine that (prevention) with the treatments that actually work – the mislabeled “alternative” therapies – and the answer to breast cancer stares us right in the face.*

*Evidently, modern medicine is disinterested. Surgery, radical mastectomies, drugs, radiation, more drugs, more radiation, more surgery – then the eventual “sorry, there’s nothing more we can do – precedes the predictable trip to the undertaker. Tell me, why do we continue to fall for this? Why do we let the politics of social acceptance and the conjured belief that our doctors and medical establishment can’t possibly be wrong get in the way of our healing?*

*America has been duped. The common, tax-paying citizen of this great land has been taken for the proverbial ride. We, who believe that our health care system is the best in the world (of course, it is far from it), have believed a lie and fallen victim to a monstrous “sick care” scheme that heals few and treats most “chronically” until they die. We have been served a heaping portion of political rhetoric professing that all conventional medicine is good and, therein, lies our only hope for health and healing. The deception continues as the pharmaceutical companies hijack the airways to promote their latest offerings that provide relief and healing for everything from hemorrhoids to cancer. Of course, that dish is served with a side order of disclaimers and “side effects” that usually “cause” or worsen the disorder they are supposed to treat.*

*I believe that most doctors are good- hearted, well-educated professionals who really want to heal their patients. Unfortunately, they have virtually no ability to accomplish this task. No, doctors do not cure people and neither do drugs. And, when it comes to breast cancer, many doctors not only get in the way – they systematically violate their oath to “first, do no harm.” Many M.D.’s that I*

*personally know – or know of – will openly confess to the foregoing. Don't infer from this that doctors are bad people. Quite the opposite, they are generally caring and concerning souls who simply lack the basic tools of the trade; and most don't know it. They are trained well to do what they do; diagnose, treat symptoms with drugs, do surgery, etc., and then hope that the patient gets well. In many instances, with minor sickness or disease, the immune system responds, the patient heals, and the doctor is praised for his healing proclivity. In most major disease, the result is the opposite and, over time, the patient succumbs. Very sad – but very true.*

*Many breast cancer patients suffer immeasurably through multiple surgeries and round after round of chemotherapy and radiation. Some survive this poisonous, cell-killing, relentless onslaught by strengthening their immune systems and through a sheer will to live. What you are not told is that most breast cancer patients – with an accurately diagnosed condition of invasive cancer – do not survive because traditional treatment therapies and drugs **do not work** and, in many cases, **kill the patient before the disease does!***

*Politics and pinkwashing – strange bedfellows that should not have any connection, whatsoever, to breast cancer. These two activities, cancers in and of themselves, permeate an industry and infect it with a malignancy that steals legitimacy from effective cancer prevention and treatment. As a result, research dollars are continually wasted, efficacious “alternative” therapies are discarded and maligned and, the ongoing process by which this is allowed to occur remains unchallenged. This, friends, is the prime definition of the cancer tragedy in America today.*

*Money and power, politics and pinkwashing. This proverbial and proven recipe for disaster continues to cost tens of thousands of American women their lives each year. And, the forecast is for more*

*of the same. You simply cannot do the same things over and over again and expect different results.*

*Politics, money, power, pinkwashing. Women die.*

*What has become of us?*

## Johanna Budwig – the Budwig Protocol

by Lloyd Jenkins of [The Budwig Center](#)

*AACI/IWARC note: Below is an interesting article from our friends at the Budwig Center about Johanna Budwig who invented the Budwig Protocol. Enjoy.*

We wanted to share with you some interesting information about Dr. Johanna Budwig. Did you know she was nominated [7 times for the Nobel Prize](#)? She gained recognition because she discovered that many chronic illnesses are due to a lack of oxygen in the body. This is caused mainly by a regular consumption of artificial refined fats and oils (i.e. margarine and commercial vegetable oils). These processed oils suffocate the cells. Under a microscope, Dr. Budwig noticed how diseased cells had an unusual color which indicated a lack of oxygen within the system. In addition, many sick patients lacked the benefits of unsaturated (cold pressed) oils which contain healthy essential fats.

In his book, **Cancer Cause and Cure** by Dr., O.P. Verma, on page 47-48 quoted Dr. Budwig who stated: “I decided to straightaway go for human trials and enrolled 600 patients from four big hospitals in Munster (Germany). I started to give flax oil and cottage cheese to the cancer patients. After just three months, patients began to improve in health and

strength, the yellow-green substance in their blood began to disappear, tumors gradually receded...I treated approximately 2500 cancer patients during last few decades.”

Because Dr. Budwig had such outstanding success with her linseed and cottage cheese formula, many have mistakenly concluded that she helped all her cancer patients simply by giving them this mixture. This is far from the truth. Dr. Budwig’s protocol also involves detoxing along with many other herbal and homeopathic formulas as well as several effective and natural therapies. Her program offered a personalized approach for each patient.

**[CLICK HERE TO READ TESTIMONIALS](#)**

The Budwig Center received direct authorization from Dr. Johanna Budwig to use her original formula. Since the year 2000, we have helped countless people recover their health following the same principles and natural treatments of Dr. Budwig. ## Why CHERISH?

*AACI/IWARC note: As many of you now know, the AACI/IWARC is fully supporting the new feminine products by the Nspire Network – especially the Cherish pads. View the letter from our friend Tracee Randall along with the testimonials below to see what others are saying.*

RANDALL.com

Great afternoon CHAMPIONS!!

So fired up about the newest testimonies that we have been receiving from women of ALL AGES about their experience with the Cherish pads! It has been incredible—last weekend I was at a women’s event with hundreds of women, and not only did I meet women who had been using the pads for several months, but I sold all 4 styles to so many new women, eager to have a pad that has no chemicals, is made with a top layer of cotton (instead of plastic, wood chips and recycled paper) and is COMFORTABLE—OH- and works! #BAM!

~~~~~

Here’s what women have been saying:

*“I started using the Cherish brand pads 2 months ago. Tracee told me to wear the pantyliners all month, the day and night pads when I am having my cycle, and the liner when I have to wear a tampon (I*

*swim). The first month I was so excited—I never knew my cycle was even coming on (no cramping!)—and it ASORBED everything. I couldn't believe how dry and comfortable it was! The icing on the cake is that it was only 3 days rather than 6 and THAT made me happy!”*

*“I will never use another brand and have stocked up for me and my 2 daughters. The women in my family have a history of hormonal imbalance and have all had hysterectomies at early ages. I am grateful to know that my daughters (ages 12 and 16) will NEVER use a brand with chemicals.”*

*“The pantyliners ROCK! My menopausal symptoms were reduced by 75% the first month, and were non-existent the 2nd month. NO more hot flashes. I'm SOLD!”*

~~~~~

Haven't ordered your Cherish pads yet? Not sure which style to purchase? Watch this quick video that explains all 4 styles (<https://youtu.be/yMmFTt0GVXM>) and then go to [TraceeRandall.com / Show Now](https://TraceeRandall.com/ShowNow) to order yours!

## **Clogged Artery Testimonial**

*contributed by AACI/IWARC International Ambassadors  
John Lim Sim & Jun Leung*

*AACI/IWARC note: The following testimonial from Pastor Antonio Wong is posted as received. This came to us from SE Asia and, although there is a language barrier, we are able to understand this perfectly.*

### **Testimony of 3 clogged heart arteries**

*Hong Kong Pastor Antonio Wong's testimony on Kangen water which had saved my life in Hong Kong.*

I'm Pastor Antonio Wong and I am sharing this testimony from an end user perspective/experiences on drinking strong kangen water PH 11.5 under special circumstances.

Under exceptional circumstances, I drank Kangen water PH 11.5 for 3 months continuously of 4 litres-5 litres daily. Six months before drinking Kangen water in December 2016, I had suffered serious insomnia (only slept 2-3 hours per day), coughing, allergy of trachea, water in lung and asphyxia while sleeping. I was weak, suffering and getting tired easily which caused me unable to work as normal. I couldn't even have enough energy to walk around as I will be out breath after a few steps.

After that, I decided to go to the hospital emergency department in Hong Kong and was admitted same day. After one week admitted in the hospital, the Doctor told me that my heart was having serious problem that 3 of the cardiovascular were over 90% blockage, which led to pneumonia, coughing, breathing and sleeping difficulties. The Doctor advised for an immediate operation (angioplasty) which cost about

HK\$200,000 or US\$26,000 is recommended to be performed as soon as possible.

My wife and I were so worried and feeling helpless as we do not have HK\$200,000, and we wouldn't be able to borrow such an amount. we were saddening.

What could I do? I can only pray to Heavenly Father God and sincerely asked for his guidance. THANKS GOD ANSWERING PRAYERS! It's such a TIMING that a Christian couple from Malaysia was in Hong Kong during that time (December 2016) in sharing the work of America Anti-Cancer Institute (AACI) and how the protocols help serious sick patients recovered. In the book of 'Killing Cancer Not People', One of the patient was suggested for drinking Enagic Ionised strong Kangen water pH11.5 for 3 months continuously of about 4 litres daily.

My thought wonder (Strong Kangen water pH11.5 is not for human consumption). Nevertheless, I decided to share with the couple about my illness and they referred to AACI for advice. The AACI Specialist "Bob Wright" then recommended that I should be drinking of Kangen 11.5 for a period of time as Strong Kangen water able to neutralise clogged blood and also has strong active hydrogen. Couple with proper supplements and diet.

After a period of time drinking strong kangen water, I could feel that my body reacted positively with Kangen water. I could climb stairs effortlessly, normal breathing and sleeping quality regained!

My routine now is drinking a glass of strong Kangen water pH11.5 in the morning and night, throughout the day I will be drinking minimum 3 little of Kangen water pH9.5. Couple with proper diet, adequate exercises and to have enough sleep and rest, my body has now recovering to Healthy stage. Enagic Ionised Kangen water really has SAVED my life.

~~~~~

My life now gradually becoming normal. Thanks God!

My wife and I have a mission now, which is to promote/share the health awareness and also to share my own testimony in motivating every family to install Enagic Kangen Ionised Machine.

Every family member should do some simple exercise daily. Everyday drink Kangen Water which will be able to reduce the chance of getting chronic diseases. There was once a saying, if a family member is sick, the whole family will be affected.

I hereby sincerely hope that everyone will make effort to promote/share the health awareness for everyone to achieve good health: PASTOR ANTONIO WONG- personal Kangen user sharing.

P/S Before drinking strong Kangen water pH11.5, please do consult the professional, doctors or AACI for opinion.

## Joy Centers

*An AACI/IWARC announcement from Bob:*

My new friend, Richelle Walker, is the founder and creator of a new healing organization called “Joy Centers.” I have met with Richelle several times and am honored to sit on the Board of Directors for this start-up, prayer centered, healing venture. Look below at the mission that is always front and center in the “whole Body” healing modalities offered through their many programs. We are participating with them in their Grand Opening and reaching out to our readers to help them get this thing kicked-off. If you have the where-with-all and the heart for endeavors like this (as we do), we are asking that you help to jump-start this beginning through a small donation that will be funneled through the AACI/IWARC. Just so that you know, we are doing ourselves what we are asking you to do by matching your donations – dollar for dollar – and donating our books and time, as well. You can contribute through our donation page on our website (designate for Joy Centers) or by sending a check or money order to the AACI, Attention: Joy Centers, P.O. Box 13117, Everett, WA 98206. In this month (October) when everything seems to be about pink ribbons and donating to cancer research that contributes almost nothing to cancer patients, let’s consider doing something that really matters. I’m in – how about you?

Hope Health Healing

*"Health begins in the inner man with a ripple effect that is boundless." Joy Centers*

Joy Centers is a whole health healing center. We are a grassroots social enterprise founded upon Christian principles. The centers will be run by synergistic teams of professionals and volunteers who offer a full spectrum of healing modalities, education, counseling and prayer. We are after long term, vibrant strength and wholeness through cooperative care. We will not only treat physical issues of pain and illness, we will help find and treat root causes preventing the body, mind and spirit from coming into whole health and abundant life. Offering tangible every day choices that empower the individual to assist the body's innate ability to prevent illness and heal itself. We will offer all of this in a non-judgmental, non-discriminating and healthy environment open to all faiths and socioeconomic backgrounds with a sliding scale available.

**Will you help us get our first center off the ground?**

We are currently:

- Building Our Team Of Physicians
- Developing Our Board
- Raising Funds and Awareness

#### **Vision**

*Restoring hope and health one city at a time through synergistic teams of faith filled practitioners, therapists and trained lay ministers integrating a full spectrum of healing modalities that offer lasting and vibrant wholeness in body, mind, spirit and emotions, including traditional alternative care, LLL therapy, nutrition and the power of prayer in green, non-toxic, spa-like environments rejuvenating faith, hope and joy.*

#### **Mission Statement**

*Our mission is to offer tangible help to those who are in search of preventative alternatives or in process of recovery. In a loving, non-judgmental, non-discriminatory environment we will help individuals discover the beliefs, habits and choices that will enable the body, mind and spirit to come into whole health and abundant life and empowering them with effective tools, education and hope for vibrant living.*

## A financial service for using life insurance today™

For millions of people who are living with a serious illness such as cancer, heart disease, Alzheimer's or AIDS, the high cost of medical care can quickly deplete essential resources. The same is true for many people over the age of 75 who have complicating health factors. Just putting money aside for basic expenses such as groceries and mortgage payments can be a challenge. LIBI gives people a place to turn for additional resources. Through a financial service called a viatical settlement, we enable people to sell their current life insurance policies for a percentage of the total face value. The money people receive may be used for any purpose and, in most cases, is free of federal income tax obligations.

*LIBI can help open the door to new possibilities—such as fewer financial worries, new options for medical care and additional resources to share with family and friends.*

All of us have our own sense of what's important, whether it's reaching a long-held goal, spending time with family and friends or enjoying the simple pleasures of each day.

## What sets Life Insurance Buyers, Inc. apart

People place their trust and confidence in LIBI for many reasons—the financial strength and stability of our company, the experience and commitment of our people, the range and quality of our services, and the leadership and integrity of our organization. These are the qualities that set LIBI apart as the industry's top broker. LIBI has helped convert millions in policies into accessible funds for hundreds of individuals in need. In every relationship, we take the time to learn what's most important to our clients and to provide them with the resources they need, in a timely and confidential manner.
