The Wright Stuff

A Word From Bob Wright

It has been 13 years now since I started the American Anti-Cancer Institute and we began the process of telling people the real truth about cancer, its prevention, and healing. It has been a long, hard journey – yet a very successful one. Starting with only a few dollars in the bank, the AACI has become the “go to” place for those seeking wisdom in healing cancer through the natural ingredients God has given us for health and healing. And it has been successful beyond my wildest dreams.

This organization has been part and parcel to helping tens of thousands in their successful quests to chase chronic illness from their bodies. My book, ***“Killing Cancer – Not People,”*** now in its Fourth Edition, has now been acquired by hundreds of thousands of people, world-wide, with almost no marketing outside

of our website, newsletter, and word-of-mouth. Many call it their “cancer bible.” I take no credit. Actually, God wrote it – he just used my hand to do it.

We have been in the process (for the past several years) of changing our public name to the International Wellness & Research Center from the American Anti-Cancer Institute. We will always retain the latter name in the background as it holds our 501(c)(3), not-for-profit designation from the IRS. Yes, your donations are tax-deductible. We have expanded from the United States into Canada, and most countries in SE Asia, to Australia and New Zealand, Europe, and even mainland China. I have traveled to most of these places. Our work has really become international as we continually seek to tell people what real truth is – and what it looks like – as it relates to defeating cancer and all other dis-ease known to man.

Each day we see more and more people abandoning conventional medicine as it appears to hold no hope for them and their individual circumstances. We would never suggest for people to do this entirely as allopathy does certainly have its merits for diagnostics, surgery (when absolutely necessary), and for trauma care. We need good doctors for these things – there can be no argument.

When it comes to chronic disease and sickness, however, it appears that Western Medicine has no real answers. Thus, they come to us – and others like us – who forward the true tenants of healing brought to us by the human immune system and the foods, herbs, plants, spices, and water that God gave us that makes healing possible. We do not deal with genetics but, rather, the epigenetic systems of the body (all physiological and biochemical functions within us) that have proven, since the beginning of time, to bring us back into homeostasis. Let me tell you, it works, and it always has.

Our country – and the world – has been ravaged for most of this past year by a purported virus that has been classified as a pandemic. I must always be straight with you, I am not amused or moved by those forwarding this hoax on us. I have always told researchers and scientists to “show me the science.” That is a motto we live by. Sadly, I struggle to find any real science with all that has been forwarded concerning this COVID-19 debacle. The test is bogus for this coronavirus (it has been proven by the man who invented it), the numbers of

deaths and infections have been inflated (even proven by the CDC itself), and tens of thousands of medical doctors world-wide are calling for a stop to the lockdowns and mask-wearing (with documentation to support their findings). It is astonishing to me that those claiming “science” – really have no backing for their claims.

I could go on – but will not at this time. I just hope that everyone will do their own homework on this and discover the truth. Sure, we must always protect the elderly who have weakened immune systems and those with co-morbidities. That should be a no-brainer. But, the facts are just not there, friends, to justify a world-wide shut down for, basically, the flu.

What we should do is to strengthen our immune systems. No one can argue with that. I am of the mind that a very strong immune system (God-given), will defeat virtually any malady presented to it – including cancer, heart disease, diabetes, auto-immune, neurodegenerative disease, anything. We just have to know what to do and how to do it. That’s what we are all about here at the IWARC/AACI. Our mission is pure without any politics mixed in. We simply want to help everyone we can with truth – and the protocols that really work.

As the year ends, many business – some like ours – will not be around to see the New Year. Politics and lack of funding – especially for non-profits – will be the cause. People aren’t giving – just trying to survive themselves. We get it. If you feel moved to help a charity this year, find one that has a just cause and can prove they are accomplishing their mission – whether that is us or someone else. Just make your donation count. We hope to be around next year. We shall see. Wishing you all a very Merry Christmas and a Blessed New Year.

*Blessings,
Bob Wright, Director and Founder
American Anti-Cancer Institute, International Wellness & Research Center*

*P.S. YES!!! This is one of the few ways that you can support
Bob/AACI/IWARC to continue providing free consultations to the needed ones!*

We just want you to know the TRUTH. NOTHING BUT THE TRUTH.

Here's the problem. --- We trust our doctors (and pharmaceuticals) to heal us when they really have no ability to do so. Contrary to popular belief (and hope), drugs don't heal people and neither do doctors. Your very own body, in fact, has been endowed by The Creator with an amazing weapon – the human immune system. If functioning properly and treated with adequate

nutrition, it has the innate ability to heal virtually anything thrown at it, and that includes cancer. And, no, this is not an essay about nutrition – although it plays the most important role in whether or not you survive all chronic illness, including cancer.

**The truth is – natural therapies and treatments work
– traditional measures usually do not.**

Therefore, we want to provide you a guide to the solutions – the health and healing strategies that really work for yourself and your loved ones!

That was the birth of our very first virtual summit in November...you may wonder...

[“What really works for Health & Healing Summit”?!...Does IT really work?](#)

Here are just a few comments among many from our participants:

“...the best informative panel of speakers including yourself that we have enjoyed on this topic of immunity and general health. We loved listening to

you and we enjoyed your summarizations to make it more **digestible for the listeners**. Your passion, love, and care definitely comes through.” ~ Caterina

“A huge thank-you to Bob and team for the richest content. Your guests **proclaimed a truth everyone needs to hear**. You're #1!!!” ~ Jacquelyn

“Thank you very much for this **powerful infos** we learned during this Health and Healing Summit. I am a former ICU nurse and now works in theatre in Dublin Ireland. I commend all of you for your passion and desire to educate people especially those who need it. I have already registered myself for the Masterclass in Summer and so looking forward to that.” ~ Lis

It is never too late to participate! Recordings of the whole summit (10 modules, 15+ hours of content) is now available for purchase at **www.10xImmunity.com!** All proceeds go to AACI and IWARC for its charity work ☺ This may be the best gift for the holiday season!

False Positive COVID Tests?

Written by: Jefferey Jaxen – a researcher, investigative journalist, writer and host of the Jaxen Report on the front lines of society's shift towards health freedom and higher consciousness.

© 2020 GreenMedInfo LLC. This article is reproduced and distributed with the permission of GreenMedInfo LLC. Want to learn more from GreenMedInfo? Sign up for the newsletter at www.greenmedinfo.com/greenmed/newsletter.

Whether you live in the USA or most of Europe, one thing remains true: [Covid-19](#) testing regimes are being aggressively pushed onto populations.

Masked populations in some countries have been told (again) they cannot leave their homes. Economies and personal lives remain stunted and manipulated by government edicts. The ticket to a 'new normal' freedom has been dangled: A PCR Covid test.

In February, [according to NPR](#), an internal review at the Centers for Disease Control and Prevention (CDC) confirmed Covid tests could be wrong 33% of the time – but CDC sent them out across the country anyway.

But that's not the whole story of the CDC's issues with quality control. Timothy Stenzel, director of the Food and Drug Administration's (FDA) Office of In Vitro Diagnostics and Radiological Health, visited the CDC's respiratory disease lab and found sloppy lab protocols.

Months later, Stenzel's own agency was disgraced as they approved tests for Emergency Use Authorization without even the most basic vetting. The FDA's policy required only that companies attest their product was valid and labeled as unapproved. The result was a flood of 170 tests--many from China, which only complicated the problem.

That's bad, but here's the *real* story. The 'mainstream' narrative was allowed to change on August 29th, when the NY Times published *Your Coronavirus Test Is Positive. Maybe It Shouldn't Be*.

The article touched on ideas that, up until then, were only considered to be spread by 'conspiracy theorists' peddling censorable 'misinformation.' The issues: false positives and no way of determining the amount of virus in someone's body. The test provides little if any sense of how contagious a person may be. If they even *have* the virus to begin with!

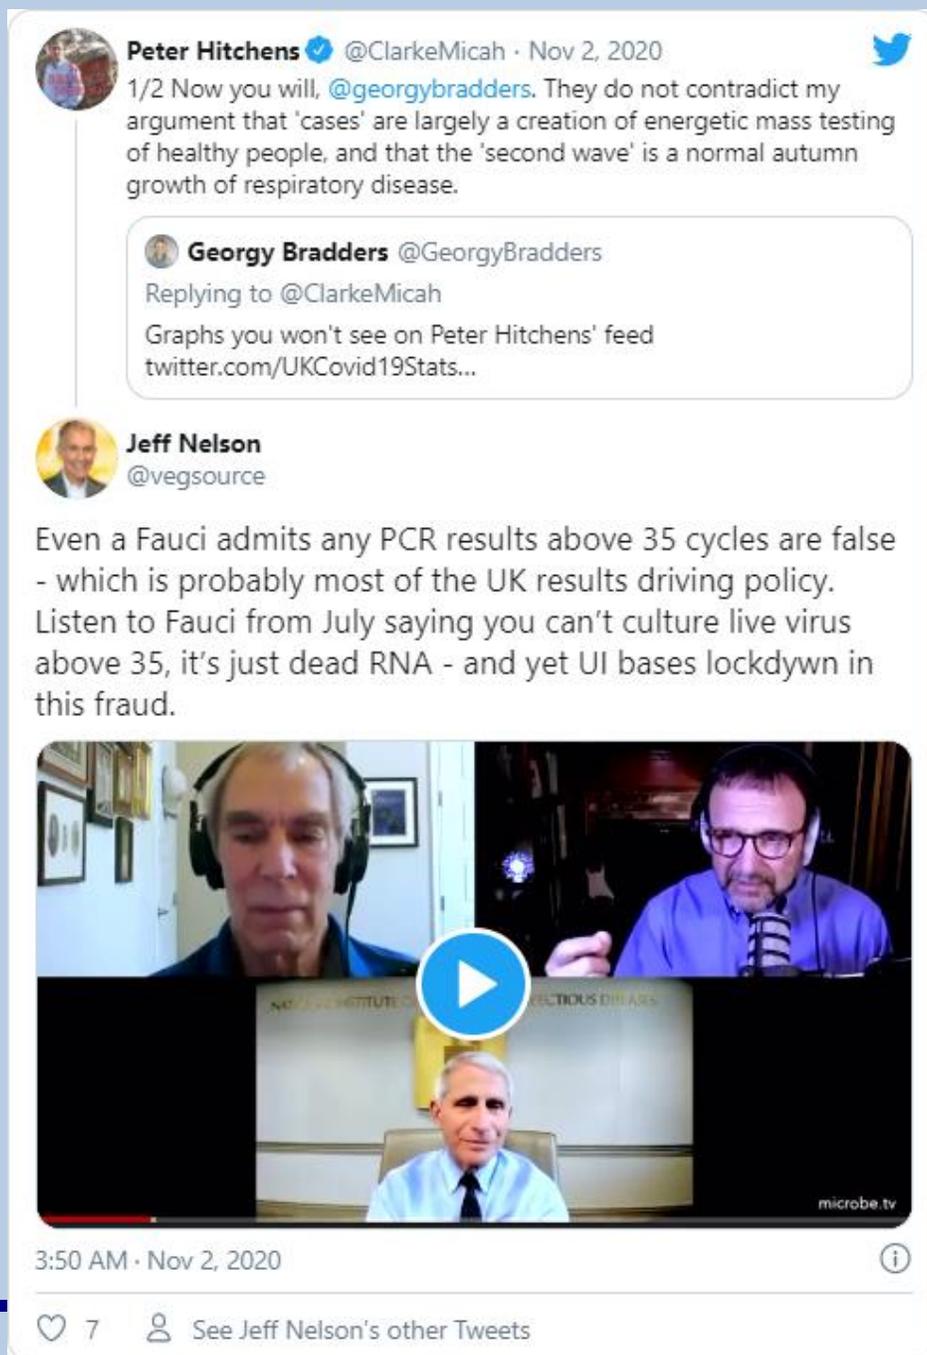

The polymerase chain reaction (or PCR test), amplifies viral RNA using multiple cycles to produce a detectable amount. The cycle threshold (CT) value is the number of cycles necessary to spot the virus. The false positives come down to a question of testing cycles.

From the *NY Times*: "*Most tests set the limit at 40, a few at 37...The C.D.C.'s own calculations suggest that it is extremely difficult to detect any live virus in a sample [above a threshold of 33 cycles](#). Officials at some state labs said the C.D.C. had not asked them to note threshold values or to share them with contact-tracing organizations.*"

Dr. Anthony Fauci recently echoed the previous findings, long-reported by the independent media and other lone voices. Despite open knowledge of false

positives from high testing cycles, Dr. Fauci made the unfathomable claim that it's now "Sorta evolving into a bit of a standard." Why is he now openly admitting what has been known for years?

Fauci added, *"If you get a cycle threshold of 35 or more that the chances of it being replication competent are miniscule."* Got that, **minuscule**. Fauci didn't stop there. *"You almost never can culture virus from a 37 threshold cycle. So I think if someone does come in with a 37...38, even 36, ya gotta say, ya know, it's just dead nucleotides. Period."*

Peter Hitchens @ClarkeMicah · Nov 2, 2020

1/2 Now you will, @georgybradders. They do not contradict my argument that 'cases' are largely a creation of energetic mass testing of healthy people, and that the 'second wave' is a normal autumn growth of respiratory disease.

Georgy Bradders @GeorgyBradders
Replying to @ClarkeMicah
Graphs you won't see on Peter Hitchens' feed
twitter.com/UKCovid19Stats...

Jeff Nelson @vegsource

Even a Fauci admits any PCR results above 35 cycles are false - which is probably most of the UK results driving policy. Listen to Fauci from July saying you can't culture live virus above 35, it's just dead RNA - and yet UI bases lockdwn in this fraud.

3:50 AM · Nov 2, 2020

7 See Jeff Nelson's other Tweets

The screenshot shows a tweet by Peter Hitchens (@ClarkeMicah) from November 2, 2020. The tweet text discusses PCR cycle thresholds and the 'second wave' of respiratory disease. A reply by Georgy Bradders (@GeorgyBradders) is included, mentioning a link to a Twitter thread. Below the tweet is a video by Jeff Nelson (@vegsource) from the same date. The video features three participants in a virtual meeting: two men in the top half and Dr. Anthony Fauci in the bottom half. A play button is overlaid on the video. The video title is 'Even a Fauci admits any PCR results above 35 cycles are false - which is probably most of the UK results driving policy. Listen to Fauci from July saying you can't culture live virus above 35, it's just dead RNA - and yet UI bases lockdwn in this fraud.' The video has 7 likes and a link to see other tweets by Jeff Nelson.

After hearing Fauci, the next logical question for populations being held under lock and key is: *What cycle thresholds are being run on the current Covid tests?*

Investigative journalist Jon Rappoport [writes](#), "*What Fauci failed to say on the video is: the FDA, which authorizes the test for public use, recommends the test should be run up to 40 cycles. Not 35. Therefore, all labs in the US that follow the FDA guideline are knowingly or unknowingly participating in fraud.*"

The NY Times investigation confirmed that officials at the Wadsworth Center, New York's state lab identified positive tests based on a threshold of 40 cycles. Likewise in Massachusetts, "from 85 to 90 percent of people who tested positive in July with a cycle threshold of 40 would have been deemed negative if the threshold were 30 cycles," writes the NY Times.

This is not just an American phenomenon. In August in the U.K., Tom Jefferson, Carl Heneghan and others at the Centre for Evidence Based Medicine asked [Are you infectious if you have a positive PCR test result for COVID-19?](#)

[The team cited several studies](#) and concluded, "*limited data of variable quality that PCR results per se are unlikely to predict viral culture from human samples....The relation with infectiousness is unclear and more data are needed on this. If this is not understood, PCR results may lead to restrictions for large groups of people who do not present an infection risk.*"

On [two separate occasions](#), Jefferson and Heneghan attempted to warn UK Prime Minister Boris Johnson against the lockdown strategy. They called for a national program of testing quality control to ensure accurate, precise and consistent results, among other common sense ideas. The two had said they searched in vain for evidence that the tests in use in the UK have been independently validated. They further called for transparency around data showing how sensitive the laboratory processes have been.

In the UK, the reality of false positives is urgent. Johnson and his gaggle of tone deaf officials are rolling out mandatory testing for all residents of four towns and

counting. The DailyMail [reports](#), "around 1,000 soldiers will be deployed" to force more than 100,000 people to get tested. Those who have questioned the move are being banned from social media.

After looking at the mass testing proposal in Liverpool, Bristol public health consultant Angela Raffle told *The Guardian*, "Experience with screening tells us that if you embark on a screening programme without having carefully evaluated it first, without a proper quality-assured pathway, without certainty of test performance in field settings, without full information for participants, and without the means to ensure that the intervention needed for those with positive results does indeed take place, the result is an expensive mess that does more harm than good,"

With mortality rates well below anything seen at the height of the 'first wave,' mass testing programs are sure to artificially inflate [false] cases. This will give the government its much-needed excuse to continue the [unscientific](#), harmful and inhuman lockdown treatments of their populations. Expect multilevel revolt in the weeks...or maybe even days...as civil disobedience escalates.

Magnesium for Life

Written by: Dr. Carolyn Dean and RnaReset

It's not what happens that defines you.

It's how you respond.

For some of us, the journey can have a few extra twists and turns. But no matter what, we can find something to activate our power to overcome what has held us back.

In Robert's case, it was found in a little blue bottle.

=====

"I can testify in favor of magnesium. I have had two heart attacks.

Before my first heart attack, my cardiologist performed a series of tests on me. His conclusion was, "start taking magnesium".

A few weeks later, I had my first heart attack, but it wasn't because I was taking magnesium. The heart attacks were caused by many years of poor diet, too much sugar, caffeine and alcohol just to name a few magnesium-depleters.

I did my research and tried taking magnesium capsules. The laxative effect was too much.

Fortunately, I found the best of the best, ReMag®.

My AFib usually lasted 20 to 30 hours. But if I took ReMag® it only lasted 2 to 3 hours.

Although I went ahead with the ablation surgery, I was in the hospital one day and out the next. The doctor said I would have AFib a few times in the first month after the surgery and I did, twice. But since then I have been AFib free.

I plan to take ReMag® for the rest of my life.

I only get about 200-240 mg (420 mg is required) of magnesium from my diet. Therefore, it's mandatory for my health that I take ReMag and ReMyte. After 4 years of faithfully taking them I have never felt better. My energy is up and I exercise three times a week. I am 78 years young and going strong!

I highly recommend these formulas to anyone who cares about their health.

~ Robert”

=====

70 to 80 percent of Americans over 70 are magnesium deficient. Magnesium is a key ingredient in about 1,000 chemical reactions in the body. When the body is not magnesium deficient, it returns to its default state of health.

That is why I receive so many “life changing” testimonials from customers over 70 – they experience the Magnesium Miracle.

Funds for Cancer?

Shared by: David Curiel, Life Credit Company

Bob's Note: Life Credit offers those with chronic illness or terminal disease funding against their life insurance policy. No, you don't have to pay it back and you still own the policy. Contact David Curiel at 888-274-1777 or support@lifecreditcompany.com for details. And, read "John's Story" and what he did in just such a situation.

In the most difficult time, John received a \$200,000 viatical settlement secured by his \$900,000 term policy. Relieving him of financial stress and restoring his ability to effectively fight his disease. Learn more of his story here:

"The diagnosis of cancer is tremendously hard, even more so when it is a terminal one. It is not only hard on you as the individual with the disease but also for your loved ones. It is also not just hard on you physically. Although it is extremely hard physically. It is also the mental side that can be even more devastating. The changes to your lifestyle due to the illness from just physical weaknesses, to the mental depression to financial changes because of a loss of income. It all weighs down upon you. The cost of a cancer diagnosis is also huge. Not only do your expenses go up due to the therapies needed your income goes down due to the inability to work. There is also no end in sight sometimes and the last thing you want to be is even more of a burden to your family. I am a fighter, I was not letting a terminal diagnosis stop me from living

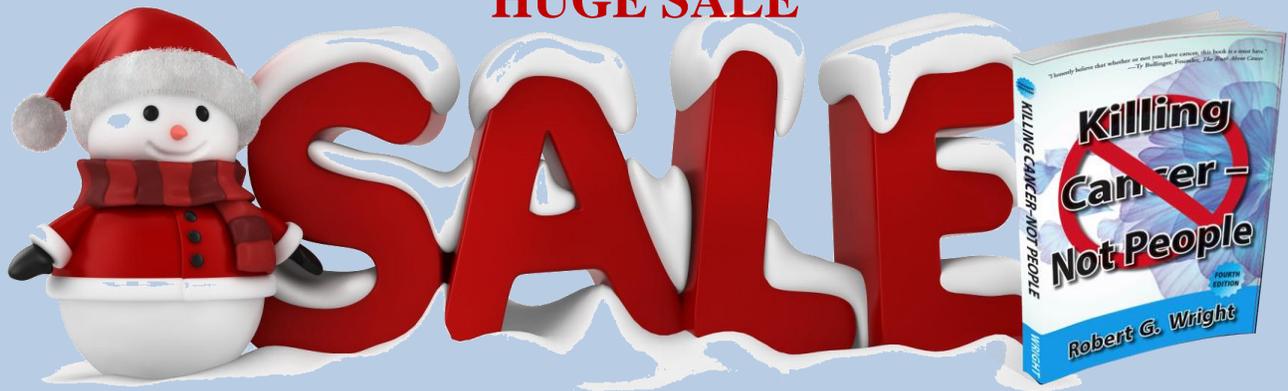

and stop me from not trying to defeat the illness. However, that being said I still suffered from the financial and mental stresses of having the illness. If you were anything like me, I bought life insurance thinking that I would never need it. Perhaps I would die in a car wreck or plane crash but even that thought was far from my mind. You never expect to get a cancer diagnosis at 38. However, the financial burden of the disease was a big stress for me. It hampered my ability to treat my illness and depressed me. I was skeptical at first when contacting the Life Credit Company. However, I was relieved to find that they were very understanding and that the process was not very difficult. I for one am glad that I took that step. Taking the loan out on my life insurance has allowed me to live my life with less stress and allowed me to do the therapies that I need without becoming financially encumbered or a burden to my family. I would recommend this company to anyone. It is hard enough already on us, this loan took one stress away. Which was a big one.

~ John M''

“KILLING CANCER – NOT PEOPLE” – THE BOOK HUGE SALE

For the month of December, we will be having a two for one sale on our book, “*Killing Cancer – Not People.*” For every book you order – you will get one free. Order one, get two. Order two, get four. Order one case (26 books), get one case free.

Go to www.killingcancernotpeople.com to order, use **promo code “HealingStrong”** at check out, this December Special will be applied automatically.

Also know that for every paid book purchased during December, \$5.00 of that purchase will be forwarded to the **Healing Strong** organization that is working around the U.S. to help cancer patients and others dealing with chronic illness. We sincerely thank all involved with this charitable group (led by Founder, Suzy Griswold) and their mission to educate people about wellness, prevention, and the healing modalities for sickness and disease. **Healing Strong** has over 160 different groups today operating in 41 states and 8 countries. To find out more, go to their website at www.healingstrong.com.

Please consider a book or two for yourself and your family this year – and we promise they also make great presents. So many now call “*Killing Cancer – Not People*” their Cancer Bible (actually, anti-cancer Bible). A portion of your purchase is tax-deductible as the AACI/IWARC is an IRS-designated, not-for-profit organization.

Meet our new IWARC/AACI Ambassador for the United Kingdom - *Leina Zarina*

Bio: Leina Zarina was born in India but likes to call herself a 'World Citizen' as she has lived in 3 continents- Asia, USA & UK and has worked as a Counsellor & Community Development Co-ordinator for 20 years with various organisations & people of all faith & culture. She has also volunteered extensively for the upliftment of Women and Children in India & UK. Leina is an active Independent Global Distributor and a believer & benefactor of the Amazing Kangen Water of ENAGIC, Japan. Kangen helped her get rid of 5 prescription medications including Type II diabetes, Acid Reflux & Migraine. At 62 She feels Kangen Water has given her a new lease in life.

She is very honoured to be the UK ambassador of AACI and excited to share with people the well proven 4 factor treatment protocol of AACI for healthy living and prevention of diseases. She is an active proponent of 2 times Cancer survivor, Mr. Bob Wright's best selling book - currently in its 4th Edition: ***Killing Cancer Not People***. Her other passion is Music. She has vast experience as a music teacher. She loves to sing & plays 5 musical instruments. Leina holds B.sc, M.S., M.Ed, ATCL degrees.

Testimonials: Thank You Mr. Wright!

Macular Degeneration Testimonial

/ASEA® REDOX Cell Signaling Supplement

This is Fred and his retina specialist, Dr. John Thordson. They're both smiling today because Fred had another outstanding checkup. Over ten years ago Fred was told he would need injections in his right eye every 6-8 weeks FOR THE REST OF HIS LIFE. The usual treatment for the inflammation and leakage he had in that eye. He did get those injections for over 6 years. Think about that...having a needle with a minuscule amount of a chemo drug injected directly into your eye....every 6 to 8 weeks. For over 6 years!

Today we're celebrating 3 1/2 years since the last injection...and were told "Keep doing what you're doing. Looks great! Come back in six months!"

Asea has made this possible! We were introduced to Asea almost 6 years ago by Ed Wiens. Fred started drinking 4 ounces a day, and Dr. Thordson noticed improvement after about 6 months. Fred increased the amount he was drinking as we were able to afford more, thanks to sharing Asea with others. Today he drinks 16 ounces a day, and he has been spraying Asea in his eyes for the past 5 years.

Abnormal Cells of the Cervix Testimonial */ ASEA® REDOX Cell Signaling Supplement*

Search Facebook

Heard great news from a friend. Since the birth of her second daughter 4 years ago, the Dr found abnormal cells in R's cervix. Every year she would visit her gynaecologist for a check up to make sure that the cells hadn't turned cancerous. This month, her Dr called and told her that the abnormal cells are gone! R has been drinking 60ml twice a day of the redox liquid since March this year. This was an unexpected bonus as R had initially been using the gel and liquid to help her heal a broken arm (now well and truly healed - sooner than expected). She continued to use the products for general health and is pleased with her current result "I'm so happy ..I thought it was a case of sooner or later for me... but so glad that I don't have to worry about this anymore. And I really think it is Asea helping me..."

Love helping loved ones!

**There is not a truth existing which I fear...
or would wish unknown to the whole world.
Thomas Jefferson**

Truth:
Taueret Laboratories, Dr Kenneth Ward - In a double blind placebo study ASEA was proven to improve Genetic Expression Pathways by 20-31%, including Heart, Arterial Elasticity, GI Tract and Gut Enzyme production, Hormone Modulation, Immune Response and Inflammation levels.

Truth:
North Carolina Research Campus, Dr David C. Nieman - "In a double blind placebo study ASEA was proven to "Decrease Disease Risk Factors" by decreasing Oxidative Stress levels and Oxidation in DNA.

Truth:
Bioaglytix - Validates that we have Trillions of Redox Signaling Molecules in every bottle. They also validate 8 of the top 10 Pharma Companies in the world. You can't say you have something without proof!

Truth:
There are two ways to be fooled. One is to believe those who have something to lose because of this breakthrough technology by writing what isn't true; The other is to refuse to accept what is true.

SPONSOR HIGHLIGHT

A financial service for using life insurance today™

For millions of people who are living with a serious illness such as cancer, heart disease, Alzheimer's or AIDS, the high cost of medical care can quickly deplete essential resources. The same is true for many people over the age of 75 who have complicating health factors. Just putting money aside for basic expenses such as groceries and mortgage payments can be a challenge. LIBI gives people a place to turn for additional resources. Through a financial service called a viatical settlement, we enable people to sell their current life insurance policies for a percentage of the total face value. The money people receive may be used for any purpose and, in most cases, is free of federal income tax obligations.

LIBI can help open the door to new possibilities—such as fewer financial worries, new options for medical care and additional resources to share with family and friends.

All of us have our own sense of what's important, whether it's reaching a long-held goal, spending time with family and friends or enjoying the simple pleasures of each day.

What sets Life Insurance Buyers, Inc. apart

People place their trust and confidence in LIBI for many reasons—the financial strength and stability of our company, the experience and commitment of our people, the range and quality of our services, and the leadership and integrity of our organization. These are the qualities that set LIBI apart as the industry's top broker. LIBI has helped convert millions in policies into accessible funds for hundreds of individuals in need. In every relationship, we take the time to learn what's most important to our clients and to provide them with the resources they need, in a timely and confidential manner.

LIBI
LIFE INSURANCE BUYERS, INC.

Since 1995

*Working with
cancer patients and
their families for
over 15 years.*

People who put clients' needs first

We truly understand that people place their trust in us every day—to treat them fairly, to deliver what we promise and to be there when they need us. Our mission is to live up to those expectations every time, without exception. That commitment is demonstrated through the professionalism and compassion of our owners. For individuals who are considering a viatical settlement, their personal representative provides a voice of understanding and serves as a trusted resource for help and information.

Leadership that makes a difference

At LIBI, we operate with the highest ethical standards, carefully protecting the interests of our clients. To us, that means maintaining strict client confidentiality, offering fair payment for policies and encouraging

From the first call to LIBI, each client works with a single client service representative, who is there to help every step of the way.

effective regulation of our industry. We work closely with the National Association of Insurance Commissioners as well as federal and state governments to promote meaningful regulation of viatical settlements. LIBI works with numerous not-for-profit organizations across the country to help educate and inform the community about this important financial resource.

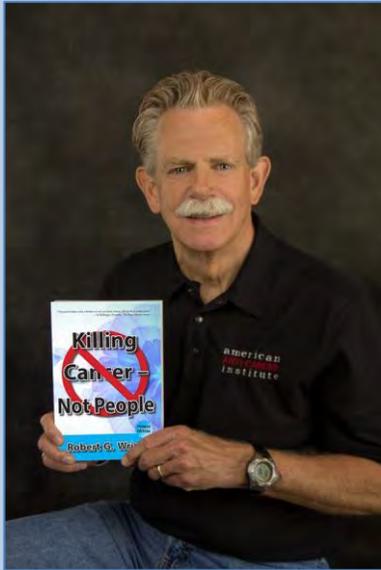

What's important?

Choosing a company you trust. At LIBI, our strength, people, service and leadership make a difference to our clients and set us apart as the nation's leading broker of viatical settlements. We encourage you to find out more about how we can help you to someone you know.

This Book represents our "bread and butter" fundraiser, so we greatly appreciate your purchase and thank you for supporting the AACI. \$12 of each book is tax deductible as a donation to the AACI under IRS Code 501© (3).

WHAT WOULD THE AUTHOR, BOB WRIGHT, DO IF *HE* HAD CANCER?

The "Wright Stuff", of course!

IN THIS BOOK:

- Read meticulously documented **Truth** about the **AACI Cancer Paradigm** and what it means for you and your family.
- **Be amazed** by doctors and medical professionals who know this Truth – some want you to know it, and some don't. Learn why.
- Learn what you absolutely **must do and stop doing** if you have cancer right now, and what you **must do** for cancer prevention.
- Understand detoxification and the cancer diet in plain English.
- Read **dozens of testimonials** from those who have suffered with many types of cancer and have struggled with conventional medicine. Discover what they did that put their disease into remission.
- **Learn the five-step protocol that is essentially all that cancer patients really need.**
