

# The Wright Stuff

## A Word from Bob Wright

Last month I wrote about a new epigenetic/genetic supplement and a new stem cell protocol that we are adding to the way we help cancer patients – and all those with chronic illness. Katy bar the door. The emails and phone calls are coming in like crazy and it seems that most everyone wants to be a part of this – or at least get more information.

We actually thought it would be this way. I believe we gave enough of the baseline information for people to seek further or get involved right away. We were pretty amazed ourselves when we first saw these technologies, then imagined the possibilities of what they could really mean.

If you missed last month's newsletter or overlooked this information, you can still get in on this by going to the two new websites that we established to disseminate the data surrounding the up-regulation, regeneration, and migration of our own stem cells and the genetic testing and resultant production of a unique supplement that is just for the individual – nobody else. Yes, as we said 30 days ago, we can really do these things now. We are hearing a lot of “Wow’s!” recently since these were introduced and people realized what can happen when one’s stem cells are “reignited” and begin to function again like they did when we were 20-30 years old and when our own “personalized” nutrition begins giving our bodies what they say they really need.

As a reminder, you can find the X39 stem cell patches and all the information about what these really are and how they work, by going to the website we set up exclusively for this at:

This month we want to focus on another product that will help each of us dramatically as we fight this constant battle with the radiation constantly bombarding us (think EMF's) through the use of cell phones, wi-fi, smart meters, cell towers – and now through the new 5G being introduced by the communications industry.

Friends, make no mistake, this new technology, combined with the aforementioned, will make it virtually impossible for the average person to escape this increasing load of electromagnetic frequencies and radiation. With 20,000 new satellites to support this effort being launched within the next two years, and millimeter wave boosters located on virtually every block in every

city, absolutely no one will be able to avoid this invader that will change our lives forever. Where will you go? What will you do? There's virtually no escape – unless...

Yes, unless we are educated as to how we can harmonize our biofields with some unique devices that will protect us (largely) from the radiation and electromagnetic frequencies produced by these technologies. Can we actually do that? You bet, now we can. But we must choose wisely. There are many devices out there right now that claim to give you protection from EMF's – when actually there is only partial or little relief with their use. Be careful. Some (or most) will concentrate only on the electrical portion of the signals and trying to block them. As a result, the real damaging part of these signals will be deflected and go around the semi-protected layer of proposed immunity or shielding in a more concentrated form with serious consequences. And, this could even include the Shungite stones that are the rage today for EMF protection.

We are now forwarding the unique products from Drs. Elizabeth and Marcus Plourde of 21st Century Health Consulting. The Drs. Plourde have come up with products that are truly “harmonizing” and able to virtually neutralize cell phone and all wireless device radiation. It is really a coup in this industry. Elizabeth has been on our Advisory Board for many years now and we trust her scientific research. She and Marcus are the authors of “EMF Freedom” and “Sunscreens Biohazard 2” – while Elizabeth authored “Sunscreens Biohazard” on her own. Folks, these Doctors are experts and we are delighted to have them on our team. From smartDots for your phones, computers, smart meters, Wi-Fi devices and boosters, and even baby monitors – to bioBands®, bioTags®, bioClips® and encoded pendants and necklaces – they virtually have it all. They also offer aquaDots, spaceDots, petDots, and babyComforters with biodot technology layered in organic cotton. Finally, they have a spacePyramid® that contains a spaceDot® and expands the energy field up to a 300 foot radius – great for your home or office.

This energyDot Technology products work synergistically in the body to create three significant alterations: 1) to un-stick red blood cells, 2) significantly reducing inflammation in the upper torso, and 3) strengthening the body's biofield, making it more coherent and solid.

This is truly 21st Century technology that we should all be utilizing to protect us from the ever-expanding 21st Century Electromagnetic pollution.

We are now including these in our on-line store. Go to our website at [www.americanaci.org](http://www.americanaci.org), click on the drop-down menu that says “Resources,” then “On-line Store,” then scroll down till you find this. We will be in the process of loading the data and links onto our site when this newsletter arrives in your email box – so if you don’t see it, keep trying, it will be there shortly.

As you can see, we are making great strides in trying to keep you informed so that you can protect yourself and your family from chronic illness – especially cancer – and to help heal you when these illnesses and diseases inhabit your bodies. Stay tuned. There is more to come.

Blessings, Bob

## Healing, Rejuvenating Juice Retreat

From Cherie Calbom - The Juice Lady

In keeping with Hope and Healing Monday, I am featuring our [Juice & Raw Foods Rejuvenating](#) retreats. We just finished our summer retreat in Santa Fe, NM. We had many people who experienced amazing results in just five days.

I want to highlight a few of the testimonies from our participants.

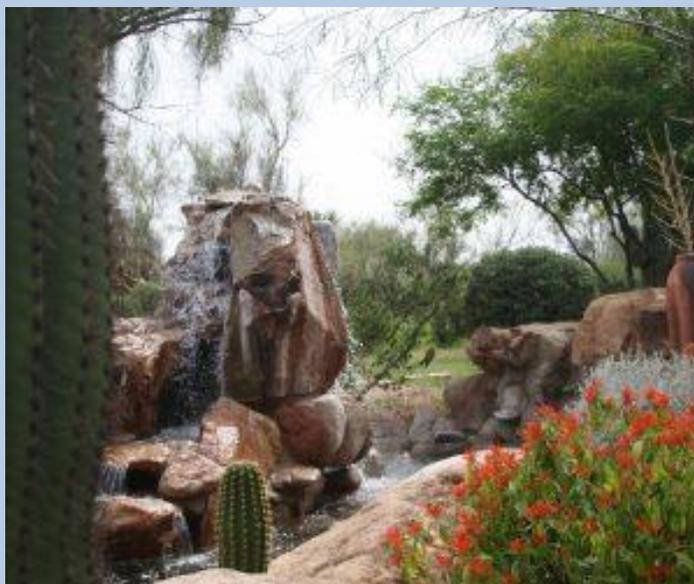

One of our ladies had been experiencing a loud thumping kind of noise in her ear for quite a while. It would even keep her awake at night. No one could diagnose it or knew what to do about it. Before the retreat was over, it was gone. One of our male retreatants, with diabetes, experienced a drop in blood sugar each day he was there. Another lady had to get a wheelchair to get through the airport coming to our retreat. She was barely able to climb the stairs to her room. By the second day, she was navigating the stairs with ease. By the end of the retreat, she carried her luggage down with no help. She said she was going home to throw away her cane and walker. And one young lady took a bath Thursday evening and discovered globs of lymph floating in the water. Her lymph system had cleansed out old lymph.

Continually we hear people say that our retreat is one of the best, most healing and rejuvenating events they have ever attended. People come for the juicing and the three days of juice fasting midweek, and discover we offer so much more. My husband, Fr. John, who is a psychotherapist and cardio biofeedback therapist as well as a priest, teaches spirit and soul classes that include emotional and mental detox along with resilience and how to de-stress and live from a happy heart. Our

approach is the spirit, soul, and body. As far as we know, we are the only program that offers all these different whole person modalities that facilitate wellness.

Our food program gives you more than juice. We begin with our delicious raw food pizza. We serve gourmet raw food on Monday. Our veggie juice fast that includes wheatgrass juice begins Tuesday. We juice fast for about three days and break the fast Thursday evening with a raw food dinner. We end the week at noon on Friday with fabulous gourmet raw food tostadas. This program facilitates detox, healing, and rejuvenation.

If you are ready to rejuvenate your body and soul, I invite you to come to our fall retreat in beautiful Carefree, AZ (Phoenix area) October 20-25. We are about half full. You can secure your spot today by registering [HERE](#).

## **How Was Your Wake-up Call?**

by Dr. Veronique Desaulnier

During the initial stages of my second healing journey, I remember waking up several times in the middle of night in a cold sweat. I was shocked and disappointed that I was facing yet another breast cancer healing journey. This was a huge wake-up call for me!

But once I settled in and got clear about my protocol, assembled my healing team and started doing the work, the fear began to dissipate.

And that can be true for each and every one of you.

If the diagnosis is still raw and fresh, it's "normal" to have emotional diarrhea and be all over the map. This is a great opportunity to learn to calm your body and your mind and to begin the process of healing.

It is not an easy process. There are many moving parts to it. But with the guidance from The 7 Essentials System®, your wake-up call gets clearer and easier. How do you climb a mountain? One step at a time.

In hindsight, I am grateful for ALL that I learned and how my life was transformed in a very positive way since that journey. I am grateful and excited every day to share a little bit of that knowledge with you through my [updated book](#), blogs and [Healing Diva Retreats](#).

If you are struggling with your diagnosis or your journey, we are here to support you. Please reach out to us at [support@breastcancerconqueror.com](mailto:support@breastcancerconqueror.com). We want to hear your story.

## The Hidden Health Effects of Sugar

*Most of you have heard me talk about sugar and referring to it as the “white death.” Want more proof? Dr. Carolyn Dean is one of the best Doctors in the world – without doubt. As a medical doctor, naturopathic doctor, certified nutritionist, and homeopath – among others, she has established herself as an expert on magnesium and most other things that help us with chronic illness – and prevention. Listen to her below and see what she says about this substance (sugar) – and what it really does to you.*

What would the world be like if we didn't become so addicted to sugar over the past half century? If allopathic medicine, which claims to be scientifically-based, had listened to scientists 50 years ago about the dangers of sugar, we could be living in a totally different world. After all, the FDA's given mandate is to ensure the safety of our nation's food supply. And if sugar is not safe, shouldn't the FDA have warned us about that scientific fact similar to the warnings issued for tobacco and alcohol? I've heard people say countless times that when their doctor told them to severely cut back on sugar (or some other addictive substance) they finally listened. So having doctors pass on this relevant information about the dangers of sugar could have saved lives.

Here is an article exposing [“How The Sugar Industry Tried To Hide The Health Effects Of Its Product 50 Years Ago.”](#) The article begins, “About 50 years ago, the sugar industry stopped funding research that began to show something they wanted to hide: that eating lots of sugar is linked to heart disease. A new study exposes the sugar industry's decades-old effort to stifle that critical research.”

This study in JAMA proves what was becoming apparent 50 years ago - that a high sugar diet increases your risk of heart disease. As soon as that inconvenient fact became known, all funding for that project was pulled and the results were never published.

The sugar industry never admitted that sugar causes weight gain – they said it was due to lack of exercise. However, there is weight gain caused by sugar, which leads to insulin resistance, metabolic syndrome, elevated lipids, and eventually heart disease. And, according to this JAMA study, sugar intake can harm the heart even without weight gain.

The study took 15 years and found that trial subjects eating 25% of their daily calories as sugar doubled their risk of dying from heart disease compared with those eating 10% sugar.

In my Death by Modern Medicine book I wrote that on April 23, 2003, the UN Food and Agriculture Organization (FAO) and the World Health Organization (WHO) presented an independent expert report titled “Diet, Nutrition, and the Prevention of Chronic Diseases.” The WHO report focused special attention on added sugars and determined that a healthy diet should contain no more than 10% added sugar.

In the US 72% of the population is overweight, yet the Dietary Guidelines for Americans only advise that sugar should be used in moderation they don't give a number. Even worse, the Institute of Medicine, part of the U.S. National Academy of Sciences, keeps the sugar industry happy by endorsing an excessive 25% of their calories from added sugar. That means if you eat a 2,000 calorie diet, 500 calories are sugar is one quarter of that amount and since there are 4 grams of sugar in every carb, you are eating 150 grams of carbs a day. The amount of carbs that you can eat but still maintain your weight or lose weight are between 20 and 50 grams. The amount of sugars allowed by our health experts ensure weight gain. Even 10% sugars from the diet means a carb intake of 50 grams. Note that a can of soda may contain 10 tsp or 40 grams of sugar; a bottle of energy drink, like Rockstar can have up to 15 tsp or 65 grams of sugar!

The sugar industry and the soft drink industry fought to have the WHO policy removed and the allowable sugar levels raised. In a blatant attempt to derail

implementation of the Diet and Nutrition Report, the sugar industry lobbied the U.S. government to withhold its \$400 million funding from the UN and WHO if it went ahead with its recommendations.

The United States Department of Health and Human Services instead of supporting the WHO recommendation to help reduce chronic disease, produced a 28-page, line-by-line critique, which was just a blatant pandering to American food companies that produce much of the world's high-calorie, high-profit sodas and snacks, especially the makers of sugars.

However, by 2014 the WHO, keeping to its mandate, began recommending that only 5% of daily calories should come from added sugars. The recommendation was not associated with any fanfare, presumably to fly under the radar of the sugar industry.

You can read another article about [“How the Sugar Industry Shifted Blame to Fat.”](#) Also read my 33-page [Rebuttal](#) to the horrendous charges drummed up against me for speaking out about sugar on Canadian national TV 37 years ago. Anyone who tried to tell the truth about sugar was publicly castigated so they wouldn't gain media attention diverting the sugar agenda. With this recent study I could say I've been vindicated but it isn't about me; it's about the millions of people who were allowed to keep eating mountains of sugar in spite of the known dangers.

But let's imagine what the world would be like if medicine had followed the Hippocratic Oath to “first do no harm” and “use those dietary regimens which will benefit my patients...”

1. Educating the public about the dangers of consuming too much sugar would result in far less obesity; less ineffective gastric bypass surgery; and less weight loss drugs with their fatal heart attack side effects (Fen-Phen).
2. There would be less obesity, less metabolic syndrome, less lipid imbalance, and therefore less heart disease.

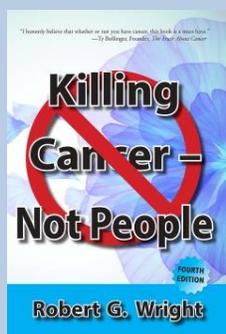

3. Blaming dietary fat as the culprit in heart disease unleashed an unnecessary witch hunt against saturated fats opening the commercial market to trans fats for decades until trans fats were found to be far worse!

4. Magnesium deficiency is associated with heart disease, metabolic syndrome, diabetes, and obesity. Perhaps if medicine was more involved with nutrition, they could have avoided this epidemic. Instead there is NO Nutrition subspecialty in medicine. There is a Bariatrics subspecialty that deals with obesity. Instead of preventing the problem, they allow it to manifest and then use drugs and surgery to treat it.

5. If medicine and the public were more aware of the dangers of sugar and the industry not covering up the problem, they might not have attacked me and convinced my licensing body that I was a danger to society because I said bad things about sugar! By keeping me (and other critics) out of mainstream media, the message of natural solutions was greatly hampered. Drug companies became the main advertiser on TV and natural solutions were demonized.

6. If there were more awareness of nutrition we might have avoided our magnesium deficiency epidemic and the associated 65 diseases that can be the result. Sugar creates a magnesium deficit because the liver needs twenty-eight atoms of magnesium to process one molecule of glucose. Fructose requires fifty-six atoms of magnesium.

7. Sugar also contributes to the epidemic of yeast overgrowth that we suffer. If we had limited our intake of sugar to the WHO recommendation of 5% of our daily calories, we would not suffer the autoimmune diseases like Hashimoto's or dozens of other inflammatory conditions that plague the Western world.

### X39™ - Pain Gone!

Dear AACI, Taking prescription medication can sometimes do more harm than good to our bodies. Many suggested pain killers will only mask the symptoms, without truly getting to the root of the issue, and can cause serious side effects as well. Thankfully a property of copper peptide is management of inflammation, without all those traditional side effects. LifeWave is committed to helping us live our happiest, healthiest lives!

*“I had an abnormal bone growth in my upper right gum that needed an immediate surgery. I am glad the biopsy came back negative. However, the pain was never gone. I was prescribed a pain killer (300 mg 3x a day) and as needed and sometimes I had to add another analgesic to relieve the pain and discomfort. I took this drug for almost a year until the X39™ was introduced. I have been using all the LifeWave patches since 2008 that kept me living well and healthier except for this nerve pain, but after a month of using the X39™ the pain was gone 100%!”*

### X39™ - More Love!

Dear Robert, The love for X39™ just keeps rolling in! Check out this amazing testimonial demonstrating the effects of X39™ on everyday bumps, scrapes, and bruises.

*“The following is a shout out to X39™ and all LifeWave Patches! They work! I’ve been a huge believer in your products since introduced in 2013! Thought nothing could outweigh the others; however X39™ is by far a winner! I fell into an elevator in April with a huge cherry coming up on my knee and a huge ugly bruise on my face/chin/neck area! I was out of town, and didn't have any X39™ with me! Came home 2 days later, in so much pain--showered and put patch on! Slept better, woke up to my knee being almost 1/2 to 3/4 swelling gone! The soreness is there, but on a range from 1 to 10, about 2 or 4! Face has cleared up and swelling is down!”*

*I started with LiveWave because I was very ill with lupus and fibro. These products have assisted me with carrying on with my life! Thank you again, David Schmidt, Mr. Inventor! I am a living testimony that X39™ works!"*

## **Check Out ÜFORIA!**

Hi Robert, The body can perform miracles by the minute when given the proper raw materials. Ütrition is a straight line of raw materials sourced by your DNA. Check out one of our many testimonials...

*"For the past couple years, I have suffered extensive neck discomfort from various past accidents. Partly due to this I have experienced discomfort at least every other day. When people talk about mental clarity, I never quite understood how they would ever realize if they were actually experiencing it. Personally, I always felt like I was in a fog. And this kept me from focusing on things I wanted to accomplish almost every day.*

*Since I started taking my Ütrition in combination with diet & exercise I have, as of late, gone more days in a row than I can remember in a long time without discomfort and my mental clarity, well now I feel like I am completely fog free. Now I know what other people mean when they say it. I really thought I was going to be suffering through this discomfort and body aches for the rest of my life. It was only a matter of a couple weeks, I started noticing changes in the way I feel. My body is responding energetically, less discomfort, it literally has me tearing up about how much better I feel and how it is has given me a new lease on life.*

*Thank you ÜFORIA for giving my body what it needed to rejuvenate itself! Now I am definitely a customer for life."*

## Shoulder Pain Relieved - SOUL

from Bradford S. Weeks, M.D., The Seed Doctor™

This chiropractor has very bad pain and restricted ROM. He suffered 19 shoulder separations from dirt biking accidents and has had many surgeries. He loves his CBD because it gives him 40% ROM with only moderate pain. We add SOUL and look for yourself what happens! In 5 minutes - 100% ROM and no pain. The benefits lasted more than 24 hrs

SOUL is more powerful than CBD and also offers the advantage of NOURISHING the patients so their own body heals and repairs faster and more thoroughly. This chiropractor was selling CBD at a medical conference I was lecturing at and he uses his CBD product and had still only 20% range of motion. See how much more powerful SOUL is than CBD.

Here is the [BEFORE](#)

Then 2 minutes after drinking and rubbing SOUL, see the [AFTER](#)

Then [THIS](#) just 10 minutes later!

Then the [NEXT DAY](#) - the benefits persist still having only use 1 packet of SOUL at 2 PM the day before.

SOUL and other organic non-GMO seed drinks are available wholesale from [www.myrainlife.com/aaci](http://www.myrainlife.com/aaci).

It is past time to join the revolution in nutrition and eat the seeds!

## **Thank You Mr. Wright!**

*“Thank you for your time and the information you just shared with me. It takes people like you to make this world a better place.*

*I am now asking myself what if I had known just a fraction of the information you just discussed with me just a few years earlier. My condition would have been much better.*

*This has been a very emotional discussion and the profound knowledge and experience you shared with me is very much appreciated.*

*I thank you sincerely and look forward to talking to you again soon.” - Wilson*

## **Kangen Testimony – Gout**

I was having gout for about 6-7 years. Comparatively, I do not considered that to be serious because the gout strike only the first and second toes of my left foot. The frequency of gout was also limited and I had been to see the doctor for medication twice in the last 7 years. However, in the second half of 2018 and the beginning of 2019, the gout frequency had increased and become more painful. Around March 2019, the gout strike and I was required to take medication and injection including painkiller prescribed by doctor.

In June 2019, I went to see a demonstration on Kangen Water. I tried Kangen Water during the demonstration and found it to be acceptable. I bought the device out of necessity as my original water dispenser had broken down. After drinking Kangen Water for about a week, my gout recurred on the 1st toe of my left foot. I was worry and tempted to take medication again to reduce the pain and swelling. However, after spoken to John, he advised me to (1) continue drinking the water, (2) soak the foot with gout in Kangen Water [3 minutes acidic water], [30 minutes in 11.5 alkaline water], twice a day.

One week later, it became serious and gout strike the second toe. Despite that, I continued with the drinking of 9.5 (3-4 liters per day) and the soaking process. The gout started to subside after the 3rd week and it's completely healed after about 5 weeks later. Since then the gout had not recur and I reduce the feet soaking. Praise the Lord.

我有痛风约6 - 7年。相比之下，我并不认为这是严重的，因为痛风只会击中我左脚的第一和第二脚趾。痛风的发生率也有限，过去7年我一直在看医生用药两次。然而，在2018年下半年和2019年初，痛风频率增加并变得更加痛苦。在2019年3月左右，痛风罢工和我被要求服用药物和注射剂，包括医生开的止痛药。

2019年6月，我去看了Kangen Water的演示。我在演示期间尝试了Kangen Water并发现它是可以接受的。因为原来的饮水机坏了，我买了这个装置。喝了Kangen Water大约一个星期后，我的左脚第一个脚趾再次出现痛风。我很担心并且想再次服药以减轻疼痛和肿胀。然而，在与约翰交谈之后，他建议我（1）继续喝水，（2）用痛风浸泡在康根水[3分钟酸性水]，[在11.5碱性水中30分钟]，每天两次。

一周后，它变得严重，痛风袭击了第二个脚趾。尽管如此，我继续饮用9.5（每天3-4升）和浸泡过程。痛风在第3周后开始消退，并在约5周后完全愈合。从那以后，痛风没有复发，我减少了脚浸泡。赞美主。

# SPONSOR HIGHLIGHT

## A financial service for using life insurance today™

For millions of people who are living with a serious illness such as cancer, heart disease, Alzheimer's or AIDS, the high cost of medical care can quickly deplete essential resources. The same is true for many people over the age of 75 who have complicating health factors. Just putting money aside for basic expenses such as groceries and mortgage payments can be a challenge. LIBI gives people a place to turn for additional resources. Through a financial service called a viatical settlement, we enable people to sell their current life insurance policies for a percentage of the total face value. The money people receive may be used for any purpose and, in most cases, is free of federal income tax obligations.

*LIBI can help open the door to new possibilities—such as fewer financial worries, new options for medical care and additional resources to share with family and friends.*

All of us have our own sense of what's important, whether it's reaching a long-held goal, spending time with family and friends or enjoying the simple pleasures of each day.

## What sets Life Insurance Buyers, Inc. apart

People place their trust and confidence in LIBI for many reasons—the financial strength and stability of our company, the experience and commitment of our people, the range and quality of our services, and the leadership and integrity of our organization. These are the qualities that set LIBI apart as the industry's top broker. LIBI has helped convert millions in policies into accessible funds for hundreds of individuals in need. In every relationship, we take the time to learn what's most important to our clients and to provide them with the resources they need, in a timely and confidential manner.

**LIBI**  
LIFE INSURANCE BUYERS, INC.

*Since 1995*

## People who put clients' needs first

We truly understand that people place their trust in us every day—to treat them fairly, to deliver what we promise and to be there when they need us. Our mission is to live up to those expectations every time, without exception. That commitment is demonstrated through the professionalism and compassion of our owners. For individuals who are considering a viatical settlement, their personal representative provides a voice of understanding and serves as a trusted resource for help and information.

## Leadership that makes a difference

### WHAT WOULD THE AUTHOR, BOB WRIGHT, DO IF *HE* HAD CANCER?

The "Wright Stuff", of course!

#### IN THIS BOOK:

- Read meticulously documented **Truth** about the **AACI Cancer Paradigm** and what it means for you and your family.
- **Be amazed** by doctors and medical professionals who know this Truth – some want you to know it, and some don't. Learn why.
- Learn what you absolutely ***must do and stop doing*** if you have cancer right now, and what you ***must do*** for cancer prevention.
- Understand detoxification and the cancer diet in plain English.
- Read **dozens of testimonials** from those who have suffered with many types of cancer and have struggled with conventional medicine. Discover what they did that put their disease into remission.
- **Learn the five-step protocol that is essentially all that cancer patients really need.**
