

The Wright Stuff

A Word from Bob Wright

Last month we announced the completion of the Fourth Edition of *“Killing Cancer – Not People”* and our hope to have it available by about the first of April. Well, we made that goal and the first orders have already been mailed out!

We also reached out to you, our loyal readers and followers, to ask for assistance in marketing this work as we strive to get it in the hands of at least a million people who really need it over the next year. Yes, that’s a lofty goal, but we really believe that it is achievable.

Also in this issue:

[Type 2 Diabetes is Curable](#) - Dr. Mark Sircus, GreenMedInfo

ReMag Testimonies – Dr. Carolyn Dean, RnA ReSet

[Insulin Resistant and Magnesium Deficient](#)

[ReMag and Reproductive Health](#)

[FDA Banned Ingredients Linked to Cancer](#) – Vani Hara, “The Food Babe”

[Facebook Censoring the Truth about Vaccines?](#) – Ty & Charlene Bollinger

[Breast Cancer and Implants Awareness](#) – Shannon Sayers

[Bob Speaks Out!](#) – New Book, Essential Oils, and Epigenetics

[Order your copies](#) of the 4th Edition of *“Killing Cancer, Not People”* now!

To that end, we have set up a temporary sales/ordering page on our website (www.americanaci.org) that anyone can now go to and order this new Fourth Edition. A new, permanent page for this and a complete website renovation will be completed before long, as well. In a sense, we are re-making the AACI/IWARC in the way that we present ourselves to the world. Simply put, we truly believe that we have the answers to cancer and all chronic illness – and we want to let people know that in the most inviting way and easy to use process. Please be patient with us as we accomplish this task.

The temporary order page is for the new Fourth Edition only. You won't see the Third Edition or the e-book on there yet (the e-book will arrive there shortly and be for all electronic readers). There is no slot to order from Canada, Mexico, or internationally at this point. That will be resolved very shortly, as well. If you are from outside the U.S. and want to pre-order the Fourth Edition, check back within about a week and the new page should be able to facilitate that.

Also, we do have some of the Third Editions left and are offering a BOGO (buy one get one) until they are gone. Email us at info@americanaci.org and we will show you how to get these. Remember, if you order one, you will get two; order two, and get four; and so on. If you order a case – you will get two cases. It's a great deal. You can resell them, give them away (thanks for this), or use them to promote your business. Keep in mind that the BOGO is only for the Third Edition.

You will see the new order page in this newsletter – as well as on our website. For the time being, the book will only be available through the AACI/IWARC and not through Amazon or book stores. All the net proceeds then go to this organization. Again, thanks for that.

On another note, we are anxious to enlist new Regional, State, Provincial, and International Ambassadors who will forward the AACI in their part of the country – or world. We have been international for many years now with Regional Ambassadors in SE Asia and Western Europe (Italy). We have around 15 sub-ambassadors and consultants in SE Asia as well. In addition, we have three separate groups forwarding us in Canada. I will be speaking in Toronto on June 8th – venue to be determined.

We are currently signing up representative groups in Australia and New Zealand. Tentatively, I expect to be there in September doing multiple events. Stay tuned to the newsletter for exact dates, times, and locations.

If you have an interest in supporting our organization in this way, please let us know – we are interested in you. Many of you are already doing most of the functions for us that an ambassador would be doing. Let's make it official! Contact me directly at info@americanaci.org and I will respond immediately to your inquiry.

As mentioned last month, if you have any ideas or special expertise in marketing – or are just a huge social media guy or gal – please consider helping us get the word out about this new book and how it has the unique ability to help our families and friends who are struggling with disease, sickness and, especially, cancer. Those on Facebook will notice that I am back on “Be Live” with Tracee Randall on Mondays at 7:00 p.m. Eastern, 4:00 p.m. Pacific Time. We are on for about 40 minutes – LIVE – so you can see my face contort when Tracee asks me all of those real difficult questions. As you probably now know, and because of our vast experience in health, healing, and nutrition, we usually always come up with the right answers – answers that are steeped in science and truth. If you miss the live performance, you will be able to watch it later as we record it.

So, there it is. We are excited and always moving forward – every day. We can't afford to take a break – cancer never does.

*Bob Wright, Director and Founder
American Anti-Cancer Institute, International Wellness & Research Center*

SUPPORT OUR MISSION!

Learn how you can help at

www.americanaci.org/aaci-friends-and-donors.html

One of the best articles I have ever read on reversing or “curing” Type 2 Diabetes was featured in the below February 20th Newsletter from GreenMedInfo. You can’t miss this. America, sadly, is now chock-full of our friends and relatives who are suffering from full-blown diabetes or metabolic syndrome (pre-diabetes, soon to be full-blown). At the AACI/IWARC we have been telling you for many years now that this chronic illness is almost always fully reversible. See for yourself what Dr. Mark Sircus has to say about this.

Type 2 Diabetes is Curable

Dr. Mark Sircus, GreenMedInfo

Type 2 Diabetes is curable if you ignore your doctor’s advice. [Diabetes](#) is not the hopeless disease that most doctors would have us believe it is though it is a long losing battle if you walk the trail western medicine wants you to travel.

Like all the [chronic diseases](#), the western medical establishment does not want you or your doctor to become conscious of the real causes of diabetes and it certainly does not want you to receive treatments that will prevent diabetes from destroying your life. Click [here](#) for the full article.

Furthering our discussion about reversing or “curing” Type 2 Diabetes, listen to what another Doctor says about insulin resistance and how magnesium makes a difference. Please know, as well, that magnesium is an absolute “must” for cancer patients. Also, subscribe to Dr. Carolyn Dean’s newsletter – it’s free.

Insulin Resistant and Magnesium Deficient

Diabetes is the most searched-for health condition on the web today. Millions are trying to find out what it is and how to overcome it. However, modern medicine doesn’t have time to educate people about lifestyle and modern doctors know nothing about the minerals that help prevent diabetes.

Instead, they prescribe drugs to force the pancreas to produce more insulin, to try and make cells allow more glucose to enter. Having been bombarded with too much insulin already, these cells are insulin resistant and won’t accept any more glucose. Thus, the cells starve and no energy is produced and the blood stream is saturated with sugar.

Magnesium deficiency is a direct cause of insulin resistance.

Here’s a testimonial about two sisters with similar lifestyles, but when it came to their glucose levels, ReMag made a noticeable difference.

“I’ve been taking ReMag for almost a year now. I do intermittent fasting, cook from scratch and avoid processed food, packaged food and empty carbs from things like bread, cereal, pasta and grains. But, I still allow myself a daily sweet treat of some sort. I work at a stressful job and have no energy for regular physical activity.

My sister is 16 years older than me, she is retired and had hip replacement surgery last year. She eats healthy like I do, but is also a vegetarian. She had to get down to a lean target weight prior to surgery and is very careful not to put on more weight prior to the next hip surgery. To meet her goals, she doesn’t allow herself as many sweet treats as I do. She also walks every day to maintain her hip mobility and being retired, she has no daily work-related stresses. She takes a pile of good quality supplements to keep off of narcotics and minimize her dose of

Celebrix. She takes things like serrapeptase, pycnogenol, proteolytic enzymes, boswellia, curcumin, moringa and more. She has also been taking magnesium malate for the last year at my insistence.

At Christmas we both decided to do this new health assessment program called Viome. They send you a diabetes meter, a sweet drink and supplies to perform a glucose tolerance test. You take an initial test in a fasting state, drink the glucose challenge drink, and then test your glucose level a few more times over the course of an hour.

Now, who should have performed better on this test? Me, with my sweet tooth, stressful job and inactive lifestyle and few choice supplements; or my sister, who is fitter, more active, vegetarian, has minimal stress, eats minimal sugar and takes many supportive supplements? The conventional bet is on my sister, but I know Dr Dean is betting on me, because she caught the part at the beginning where I said I've been taking ReMag for almost a year now.

My sister's numbers were 102, 193 and 137 in mg/ dL and mine were 82, 121 and 95. I couldn't believe it! The only thing in my favour was my younger age. It took me about 15 min to realize it wasn't just the magnesium, it was the ReMag.

There's no better proof that you need ReMag in your corner to support your body's insulin balance as you age.

Sincerely, from a faithful member of Dr Dean's fan club!"

One sister tested better for glucose levels because she takes ReMag instead of another less-absorbed form of magnesium. Why was ReMag more effective? Because, ReMag is a more fully-absorbed form of magnesium, allowing it to saturate the cells more efficiently, and do a better job of supporting the Krebs energy cycle so the cells can make better use of sugars.

If you think you might be magnesium deficient, order a bottle of ReMag today at <http://rnareset.com/remag>.

Aloha, Dr. Carolyn Dean, RnA ReSet

ReMag Testimony – Reproductive Health

You all know how much we admire Dr. Carolyn Dean. We forward her magnesium and mineral products every chance we get. The fact is that most people are low in magnesium regardless of what their serum levels say (how much in the blood). This mineral needs to get into the cells to be effective and most types and brands just never, ever get there. Pico magnesium is different – and Dr. Dean’s ReMag and ReMyte seem to produce “miracles” these days for so many people. Of course, these are not really miracles – just good, pure, pico magnesium doing what it does. See the story below about how a life has been changed through the addition of this product into her diet.

Here is the story of a customer whose life turned around for the better once she began to address the root of her reproductive health issues—magnesium deficiency.

“Dr. Dean’s expertise in magnesium research has given me my life back! About 15 yrs ago I started having very heavy periods. A nurse practitioner decided to put me on Vioxx to reduce the bleeding. Soon, to my horror, even though it didn’t really work, it was taken off the market. My heavy periods continued for 3 years. Seven or eight months later, I had my first ever experience of vertigo. I was able to call the ambulance while lying on the floor thinking I was having a stroke. I was also on my period... again heavy bleeding. I came to learn that I had fibroids and they were quite large. I had a hysterectomy a couple of months later.

A couple of months after hysterectomy, I would start to get this "weird" severe fatigue. It was kinda scary when it happened when I was driving. It was happening every 3 or 4 days! MY LIFE SUCKED! It was accompanied by horrible anxiety/panic attacks. I'm 54 years old now and so I was thinking it was related to menopause. If it wasn't for the anxiety I would have thought I had some strange disease and was dying.

In between being passed out on the couch or my heart feeling like it was beating out of my chest, I googled and researched my symptoms. Dr. Dean's name kept coming up in various blogs and magnesium deficiency followed. I didn't take it too seriously at first because I was already taking magnesium (about 200-300 mg a day).

I ordered Dr. Dean's Magnesium Miracle book. I then started to increase my magnesium (I was using Magnesium Glycinate) to about 600 mg a day and continued to go through and read her blogs. I noticed immediately that the ringing in my ears that started months before went away within a couple of days and the light-headedness when I would stand started to ease up also. Something GOOD was happening! I would start to feel better but then I would "crash" again. I continued to research and found out that the extra Vitamin D and calcium I was taking could be depleting any magnesium that I was taking!

I have been on ReMag now for two weeks and again WOW—I have noticed even better and quicker improvements! That stuff is liquid gold to me. I have finally been able to resume my walks as of yesterday after giving it up back in October. My body was shutting down. I was starting to have the feeling like I was going to have more vertigo symptoms, strange feelings in my head and I started to have problems with swallowing and catching my breath. I have always taken care of myself and am not on any prescription medications. I have always exercised and am at a healthy weight so all of this just freaked me out!

So here I am, improving more and more every day. I know that the "weird" horrible fatigue that I was experiencing was because of a magnesium deficiency...WOW! Although I want to give ReMag the credit for most of it I have to say that the Magnesium Glycinate got me on the road, unfortunately I was having to swallow 8-10 capsules a day, so ReMag made it much easier to get the magnesium my body requires.

--Corina

Although Corina was already on the road to recovery once she discovered the importance of magnesium, notice how she reports “better and quicker improvements” once she upgraded to ReMag? This is because when it comes to magnesium particles getting absorbed into cells, ReMag’s picometer molecules do that better than any other formula on the market. Plus, she no longer had to choke down a bunch of magnesium pills.

Why waste money on magnesium products that don’t get fully absorbed and just end up in the toilet when you go to the bathroom?

Ready to upgrade your magnesium? Start with ReMag: <http://rnareset.com/remag>

Aloha, Dr. Carolyn Dean

Please note: Although we include several items mentioned in our on-line store, we don’t sell them but rather guide you to the sources we recommend. In full disclosure, some of the companies do donate a portion of their proceeds to AACI fundraising, however no company pays us to endorse their products.

FDA Banned Ingredients Linked to Cancer (but they are still on the shelves)

Vani Hari, a.k.a. “The Food Babe,” has a new book out called “Feeding You Lies.” In the link below she describes (from her book) how the FDA has banned several different substances from our food – and yet they are still found on store shelves today. Please read what she has to say on this and consider getting her new book. Click [HERE](#) to see which banned ingredients are on store shelves now (BRAND NEW INVESTIGATION!)

Facebook Censoring the Truth about Vaccines?

In America – and most places around the world today – we get to do what we darn well please and what we feel is true and right. And I agree with that philosophy. But – and here’s a really big but folks – it’s time to set all dogma aside, do our homework, read the real science, and discover the truth about vaccines. Friends, I don’t want people to tell me something that makes me feel good about myself and my decisions (for me and my children) – I want to know the truth. And I want to know it here and now – and always. Please read what my good friends Ty and Charlene Bollinger have to say regarding “The Truth About Vaccines” at the following link (then, make your own decisions – but based upon truth and science):

Yet another attack on freedom may result in further censorship regarding vaccines. Last month, Facebook responded to pressure from politicians who blame them for spreading “misinformation.”

Facebook is considering reducing or removing any content that questions the efficacy or safety of vaccines and they are not the first social media platform to censor free speech. Click [HERE](#) for the full story, plus the real facts about vaccines.

Breast Cancer and Implant Awareness

Ladies, for those of you concerned about breast cancer (all of us should be concerned in today’s environment) and, particularly as it relates to breast implants and reconstructed breasts following surgery, please listen to my good friend, Shannon Sayers, through her blog called “Get Army Strong.” There is a lot of great information here and it comes straight from someone who has been through it – and continues to go through it.

Click here: [Breast Cancer and Implant Awareness](#)

BOB SPEAKS OUT!

Have you been joining us on the Live interviews Mondays at 7 pm Eastern on the American Anti-Cancer Facebook Page? Generational Health Founder and AACI Director Tracee Randall has been interviewing Bob on a variety of topics covered in the 4th Edition of “Killing Cancer, not People”. If you missed any of the interviews so far you can catch the replays here:

Week 1, Announcing the 4th Edition, what’s new and improved?

https://youtu.be/KqynNKRL_zg

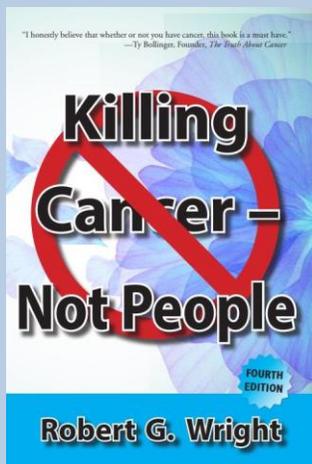

Week 2, Why Bob chose to put essential oils in the 4th Edition and which company he feels has the best on the market

<https://youtu.be/b8KWHqDc3ak>

Week 3, Epigenetics – what are they and why are they important?

<https://www.facebook.com/killcancerNOTpeople/videos/2517727881575525/>

Like the [AACI Facebook page](#) now so you get notified of future interviews!

SPONSOR HIGHLIGHT

A financial service for using life insurance today™

For millions of people who are living with a serious illness such as cancer, heart disease, Alzheimer's or AIDS, the high cost of medical care can quickly deplete essential resources. The same is true for many people over the age of 75 who have complicating health factors. Just putting money aside for basic expenses such as groceries and mortgage payments can be a challenge. LIBI gives people a place to turn for additional resources. Through a financial service called a viatical settlement, we enable people to sell their current life insurance policies for a percentage of the total face value. The money people receive may be used for any purpose and, in most cases, is free of federal income tax obligations.

LIBI can help open the door to new possibilities—such as fewer financial worries, new options for medical care and additional resources to share with family and friends.

All of us have our own sense of what's important, whether it's reaching a long-held goal, spending time with family and friends or enjoying the simple pleasures of each day.

What sets Life Insurance Buyers, Inc. apart

People place their trust and confidence in LIBI for many reasons—the financial strength and stability of our company, the experience and commitment of our people, the range and quality of our services, and the leadership and integrity of our organization. These are the qualities that set LIBI apart as the industry's top broker. LIBI has helped convert millions in policies into accessible funds for hundreds of individuals in need. In every relationship, we take the time to learn what's most important to our clients and to provide them with the resources they need, in a timely and confidential manner.

LIBI
LIFE INSURANCE BUYERS, INC.

Since 1995

*Working with
cancer patients and
their families for
over 15 years.*

People who put clients' needs first

We truly understand that people place their trust in us every day—to treat them fairly, to deliver what we promise and to be there when they need us. Our mission is to live up to those expectations every time, without exception. That commitment is demonstrated through the professionalism and compassion of our owners. For individuals who are considering a viatical settlement, their personal representative provides a voice of understanding and serves as a trusted resource for help and information.

Leadership that makes a difference

At LIBI, we operate with the highest ethical standards, carefully protecting the interests of our clients. To us, that means maintaining strict client confidentiality, offering fair payment for policies and encouraging

From the first call to LIBI, each client works with a single client service representative, who is there to help every step of the way.

effective regulation of our industry. We work closely with the National Association of Insurance Commissioners as well as federal and state governments to promote meaningful regulation of viatical settlements. LIBI works with numerous not-for-profit organizations across the country to help educate and inform the community about this important financial resource.

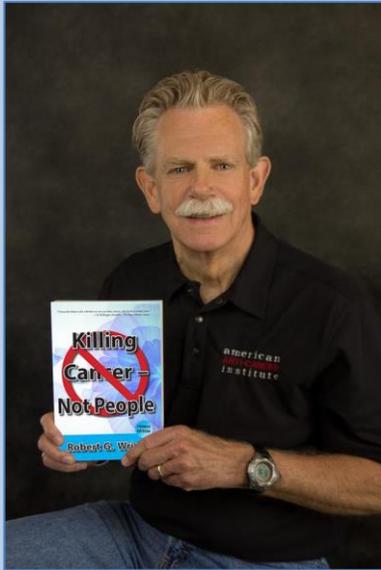

What's important?

Choosing a company you trust. At LIBI, our strength, people, service and leadership make a difference to our clients and set us apart as the nation's leading broker of viatical settlements. We encourage you to find out more about how we can help you to someone you know.

WHAT WOULD THE AUTHOR, BOB WRIGHT, DO IF *HE* HAD CANCER?

The "Wright Stuff", of course!

IN THIS BOOK:

- Read meticulously documented **Truth** about the **AACI Cancer Paradigm** and what it means for you and your family.
- **Be amazed** by doctors and medical professionals who know this Truth – some want you to know it, and some don't. Learn why.
- Learn what you absolutely ***must do and stop doing*** if you have cancer right now, and what you ***must do*** for cancer prevention.
- Understand detoxification and the cancer diet in plain English.
- Read **dozens of testimonials** from those who have suffered with many types of cancer and have struggled with conventional medicine. Discover what they did that put their disease into remission.
- **Learn the five-step protocol that is essentially all that cancer patients really need.**
